## CHEMICAL GLOVES features

The NJORD chemical resistant gloves offer you maximum protection and comfort with their long-shaft design and liquid-proof materials that also protect against micro-organisms.

With NJORD you can always expect:

- Protective equipment for maximum safety
- Premium quality and consistency in products
- Global availability and standardization

### EXPECT MORE

In Norse mythology, Njord was the patron of seafarers and the god of wind and waters. These characteristics have been transferred to our NJORD product line providing expert care to seafarers when they sail the seven seas.
