HI-VIS JACKET features

The NJORD hi-vis jacket offers you maximum protection and comfort with its highly distinctive fluorescent colour, reflective and weather-resistant materials.

With NJORD you can always expect:

- Protective equipment for maximum safety
- Premium quality and consistency in products
- Global availability and standardization

EXPECT MORE

In Norse mythology, Njord was the patron of seafarers and the god of wind and waters. These characteristics have been transferred to our NJORD product line providing expert care to seafarers when they sail the seven seas.

HI-VIS JACKET features

The NJORD jacket is made with a hi-vis yellow fluorescent surface in a retro-reflective material and provides high visibility to signal your presence in daylight, at night or in poor weather conditions while at sea or port. The NJORD jacket is fitted with reflective strips across both torso and arms.

The NJORD jacket complies with EN ISO 20471:2013 class 3, which is the highest safety class for high visibility clothing.

The NJORD jacket is made of a water and wind-resistant material and comes with 4 zipper pockets. The jacket comes in 5 sizes and has Velcro adjustments to fit any arm length.
