LEATHER GLOVES features

The NJORD leather gloves offer you great comfort and protection in your all-around work due to their highly durable design and materials that reinforce exposed areas of the gloves.

With NJORD you can always expect:

- Protective equipment for maximum safety
- Premium quality and consistency in products
- Global availability and standardization

EXPECT MORE

In Norse mythology, Njord was the patron of seafarers and the god of wind and waters. These characteristics have been transferred to our NJORD product line providing expert care to seafarers when they sail the seven seas.

LEATHER GLOVES features

The NJORD all-around heavy duty working gloves are made from OX split leather. They are reinforced with an extra layer of OX leather across knuckle and fingertips, which will protect the user and offers longer lifetime for the glove.

The cuff is made of 7 cm braced polyester and has a polyester back, which makes it breathable and offers higher comfort for the user. It is a pair of general working gloves for the user that needs extra high durability.
