Conservatoire

EARLY YEARS | CHILDREN | ADULT

Providing exceptional, welcoming
and creative music and art tuition
to South East London since 1881.

Registered Charity No: 1072627

Welcome

Spring Term 2026 was first term of our new course progression – nurturing Young Musicians and Young Artists is something we have always done but clearly defining it inspires not only our students but our whole community. This is never more clearly illustrated than on Friday lunchtimes when we invite our brilliant tutors to perform Free on Fridays – we watch babies, children and adults of all ages enjoy a feast of music from folk to jazz, opera to newly written South American songs. All this goes on whilst in the adjoining studio adult students are taking a watercolour class taught by artist, Sophie Knight, whose work is currently being shown in a London gallery. We sometimes take it for granted that our tutors are practising artists and musicians, but this is the Conservatoire in a nutshell!

This Summer Term we continue our popular Free on Friday series, showcasing our tutors starting with cello duo, Duo Brikcius, and ending with renowned concert pianist Phillip Leslie. We are also introducing a new Friday evening concert slot as well as welcoming back Alice in Wonderland – Alice's Journey, illustrating the famous story with live classical music.

We are always keen to open our doors to all – we are proud that there is something for everyone at Blackheath Conservatoire!

Discover – age 6 months to 4/5 years

All children are natural explorers, they just need to be in a creative environment. Their cognition is developing faster than at any other time in their lives and at the Conservatoire we want to give our **Young Artists (YA)** and **Young Musicians (YM)** the freedom, opportunity, and imaginative space to explore in a supportive setting. Our **Young Musicians** and their parents (and carers) will discover a wonderfully revitalised programme with lots of exciting and rewarding new features.

Foundation – age 4/5 to 11 years

As our **Young Artists** and **Young Musicians** gain confidence, they are keen pick up an instrument or paintbrush, and take their first independent steps, learning new skills. At the Conservatoire, we believe in the power of learning together as part of their musical and artistic **Foundation** – they learn by watching and listening to each other, as well as our expert teachers.

Specialism – 9 to 17 years

With strong **foundations**, our **Young Musicians** are ready to move on to one-to-one lessons from 6 years and develop their music theory and choral and ensemble skills. Our **Young Artists** can now choose areas in which they would like to **specialise** and they also have the option to continue in the more general Foundation classes up to age 11, which are designed to adapt to suit all of the ages covered in the class.

Adults – Forever!

Anyone who has been in our building will know that we are the home of lifelong learners. We know what it gives them – a boost to their mood, wellbeing and creativity, feeling a connection with others, achieving something in what can be a difficult world – and we hope they know what it gives us, a vibrant building where students and tutors thrive! From 9am to 9pm it feels like the building hums with the creativity of these adults still thinking **what if...?'**

Young Music Discover Tutors

Hilary Dolamore

Hilary trained at the Royal College of Music as a post-graduate singer, and then in the Opera Department. Her singing work has taken her all over the UK in touring operas, and all over the world as a recitalist to Europe, Asia, Australia and New Zealand.

Hilary ran a community adult and baby music group in Catford for many years before joining the Conservatoire in 2017, first as a tutor, and then in 2020 becoming our Early Years Music programme lead. Hilary takes great care to gently encourage and give space to those who need it, and always affirms every moment of progress, no matter how small.

“Our offering is very unique. From the earliest age group of six months, we combine lots of joyous music making with real musicianship which is accessible and transferable. There are very few children who are not beguiled by the rhythm, routine, and repetition in each class – not to mention our delightful selection of fun puppets, cuddly teddies, and exciting percussion instruments to “jam” with!”

María José Andrade

María José Andrade is a British-Chilean theatre director working in theatre, performance, music, and sound experimentation. She has taught and mentored young people in London and the USA. She is a singer and guitarist with a passion for Latin American folk rhyme and tunes.

“Children’s curiosity inspires me to create fun, interactive sessions for discovery and experimentation.”

Jas Ratchford

Jas is a London singer-songwriter passionate about storytelling and Early Years music educator. She studied at the Conservatoire and Cambridge, has performed at the Edinburgh Fringe and Assistant Directed for the National Youth Music Theatre.

“Writing and performing music has been a lifelong love of mine, so I’m excited to bring my love of song and stories to the Conservatoire.”

Jo Girdlestone

Jo G trained at Drama Studio London and has worked in theatre and music education at top venues like the National Theatre, Young Vic, and V&A. She specialises in creating original work for young people. A singer and acoustic guitarist, she also performs on the live music circuit.

“The classes are fun and inclusive, so babies and toddlers begin to know about music before they know they know about music, making their onward musical adventure a natural progression.”

Lyle Sauer

Chicago-born and London-based, Lyle Sauer is a multidisciplinary music educator and Rose Bruford graduate. They sing, play multiple instruments, and have taught drums across all ages. Their work—spanning bands, composition, and pit percussion—is rooted in inclusivity, informed by experience as a SEN teaching assistant and early efforts creating accessible instruments.

“I believe music is a powerful tool for connection, self-expression, and healing. It gave me confidence and belonging—and I’m honored to pass that on.”

Discover

– the home of natural explorers

What is Discover?

In **Discover** classes, with our expert tutors guiding but standing back when needed, the children are discovering and creating, expressing feelings they may not be able to verbalise. As their minds explore and express, their bodies are responding: building up motor skills, developing hand-eye co-ordination and, as they make patterns (both musically and artistically), count and play with textures, shapes and sizes, beats and rhythms, and use tools and puppets; they are also making their first forays into the worlds of maths and science.

Discover Skills

Through art, music and imagination, they start to use language and express themselves through stories and word repetition. With their classmates they are learning to share, listen, problem-solve, take turns and help each other. With their parent or carer, they are strengthening that bond in a new way. And parents are creating too! Together, the groups build a sense of community.

Young Musicians

In our music classes, through stories, song and percussion, our Young Musicians [and the parents or carer who accompanies them] explore tempo, pitch and rhythm. Our new programme draws upon well-established music pedagogies together with our Team Lead's own experiences as a musician, Early Years practitioner and parent. Here are some of the highlights:

Makaton hand signs: Our tutors have been trained in Makaton for Singing to support communication between adults and pre-verbal babies or speech-delayed bilingual children.

Songs for Grown Ups in our 6–18month classes: a moment for adults to enjoy the physical and mental health benefits of singing in a supportive group in the knowledge that their little ones are cocooned in sound.

Solfa and Kodály hand signals for our 4-year-olds to support pitch, sight-singing as well as getting ready for our **Foundation** classes: **Musicianship, Roundabout, Play!** and **Junior Choir**. Also, for the first time they will experience a stringed instrument – the ukulele, (which they can also have fun with in our Ukulele for age 3+.)

Young Artists

Our art classes are a playful creative start to art for children ages 0–4. Inspired by special days and seasonal events, there is a loose theme each week, although overall these sessions are child-led. They explore a variety of techniques including drawing, painting, printing, 3D, cutting and sticking, with lots of help and tips to inspire mark making, colour, texture and storytelling. They provide a fantastic opportunity for self-expression, and parents can breathe a sigh of relief that the mess stays with us!

What if I mix these colours? What if the bear has a loud booming singing voice but moves quickly? What does it feel like when I dip this sponge into this paint? What if I help the tutor hand out the tambourines to my classmates? What if we carry this curiosity throughout our whole lives...?

Young Artists Discover (6mths–4yrs)

YA

A wonderful introduction to the world of art. These child-led, exploratory sessions will enable you and your child to discover different materials, textures and art forms in an engaging and stimulating environment. Children acquire new skills on a week-by-week basis and gain more confidence in the vocabulary they use to describe what they see and feel.

Activities are kept relevant and interesting by linking classes to seasonal activities and celebrations and stations focused on different inventive skills and activities are set up for children to explore at their leisure (with support from our fabulous artist-tutors). They can make as much or as little mess as they want on their creative journey! As they get older they can move up through the Young Artists Discover and Foundation stages.

Please note, these are not drop off sessions, and parents and carers are expected to stay and join in.

Young Musicians Discover (6mths – 18 mths)

Tutor(s): Hilary Dolamore, Maria José Andrade, Lyle Sauer, Jo Girdlestone

Our youngest children are being cocooned in a mini-world of sound and action co-created by adults and tutor. You will focus on a theme; perhaps it will be travel? a visit to the farm or Springtime?

Musicianship topics such as stopping and starting, high and low pitches, steady beat and loud and soft will be gently incorporated through song, percussion instruments and movement. You will notice your tutor using Makaton hand signs in the session to support non-verbal communication. Later in the session, whilst the babies are busy with our play bag, grown-ups can take a moment for themselves and sing a variety of world songs in unison or cannon lead by the tutor – Songs for Grown-Ups.

This term the children might be sheltering from the wind and rain, hunting for mini-beasts or looking out for the first signs of Spring. Umbrellas will be up and wellies on as they get out and about in the classroom. As your tutor leads you through these and other stories, families will be unconsciously experiencing pitch, pulse, dynamics and other musicianship concepts. Together, week-by-week you will create a Song Box – a box full of small objects and puppets that remind us of all our favourite songs learnt throughout the term. Your tutor may also incorporate some Makaton hand signs into each lesson. There is so much to Discover!

Tutor(s): Hilary Dolamore, Lyle Sauer, Maria José Andrade

Using a selection of carefully curated books as a passport, children and adults are going on magical journeys with the tutor as the tour guide. It could be a trip to Kenya where some greedy animals help us learn about dynamics; or perhaps a night-time flight to a mysterious playroom where the toys teach us about pulse; there is a sleep-deprived bear whose stomping feet help us understand notation and a weather-loving elephant who with his friend Eddy helps understand rests. Gradually we are learning more consciously. Over the term we will also create a Song Box of "treasures" to remind of us of certain songs as we learn Solfa which will improve sight-reading. The four-year-olds will, for the first time, move away from percussion and experience their first stringed instrument as they learn the rudiments of the ukulele.

Please note, these are not drop off sessions, and parents and carers are expected to stay and join in.

Ukulele (3-5yrs)

In this class, the children learn basic techniques on this little instrument in an engaging and fun way. Together as a group, we explore all the sounds a ukulele can make, as well as strumming open string pieces and plucking with simple chords. We even work together to write our own little pieces of music. Best of all: ukuleles always sound good! This class is the perfect introduction to playing a stringed instrument. Students will progress through classes and are then able to join one of our many group string classes, Foundation Musicianship or Roundabout.

We have classes for 3-5 or 4-5 year olds to suit your schedule and groups for beginners and those who have some experience.

"Playful, fun, and interactive, it fosters strong teacher-child engagement in a small, friendly group!"

Foundation

– bringing the building blocks together

Foundation Framework

At the Conservatoire, we believe in the power of learning together as part of children's musical and artistic **Foundation** – our **Young Artists** and **Young Musicians** learn by watching and listening to each other and any professional creative will tell you that collaborating and socialising through art and music is the **Foundation** of their developing practice. From this point they attend our classes independently as they move towards producing independently created art and music with the scaffolding support provided by a solid framework.

Foundation Skills

Our thoughtfully devised group courses are structured to develop a wide range of skills, explore new concepts across the arts and build social skills in a fun, informative and collaborative way. We hold termly performances and exhibitions – looking at and listening to the work of other students provides an important opportunity to develop a visual and musical vocabulary about what they see, what they hear, what they like and what they could try next.

Young Musicians

For our **Young Musicians** high-quality group lessons allow students, to develop increasingly sophisticated musicianship, instrumental and vocal skills in a fun and motivating environment. In **Foundation Musicianship**, students meet the orchestra, experience music from around the world, try out the ukulele and even start to

compose! Our flagship **Roundabout** programme introduces children to six instruments over the course of a year. They are then ready to choose their favoured instrument for the follow-on programme **Play!** which is designed to help children to progress further through small-group learning. In **Junior Choir** they can sing together, harmonising and exploring how the voice works. **Foundation Musicianship** age 5–6 gives them a chance to play and sing together in small, supportive groups.

Young Artists

Our **Young Artists** in **Foundation 4–6** build their skills throughout the term with step-by-step guidance and suggestions to help them along the way, alongside the opportunity to make their own choices and exert creative freedom! The inspiration is from exhibitions currently taking place across London and seasonal events. Children develop their knowledge of colour, texture, and their skills with brushes and scissors, while expanding their notions of what constitutes art with the emphasis still on fun!

The next step in **Foundation 6–11** is building upon and applying the knowledge and skills they already have, developing focus, deepening an understanding of the world and extending their self-expression. Using inspiration from current exhibitions, the tutor guides the children through the creative process teaching a broad range of skills but with more independent decision-making and problem-solving, developing the perseverance to overcome what they may perceive as mistakes.

Welcome to the Conservatoire, bringing the building blocks together

- High quality progressive group lessons developing artistic, instrumental, vocal and musicianship skills

Young Artists Foundation (4-6yrs)

Tutor(s): Sue Harris, Fiona Berry, Windy Van Druten, Harry Whitelock

Our Young Artists now take the next big step of attending on their own. They gain a fantastic wide-ranging artistic education, forming a bridge into a more structured (but still fun and imaginative!) learning environment where they take more ownership of their work, whilst still being supported. Step-by-step making done on their own pieces and simplified methods of each material process help children gain confidence with a variety of tools and techniques, helping them transition into their school years. Children's fine

motor skills develop at different rates, so scaffolded choices are always offered.

Activities are kept relevant and interesting by linking classes to seasonal activities and celebrations and inspirational artists. As they progress they can move on to Young Artist Foundation 6-11.

Foundation Musicianship (5-6yrs)

**Tutor(s): Hilary Dolamore,
Maria José Andrade**

We have created this musically rich and diverse course to introduce children to the wider universe of classical and world music whilst continuing to deepen their knowledge of musicianship. There are four strands of learning: Meet the Orchestra with an opportunity to try instruments from the different orchestral families; Walk this World and understand the styles of music making in other countries; Carnival of the Animals where the children focus on a composer and learn how music can be written to illustrate different animals; Jack and the Beanstalk which is used to introduce pitch and writing short compositions on a 3-line staff with dynamic markings. In addition to the above, they will also be learning ukulele and the Solfa technique.

This class is a perfect follow-on from our **Young Musicians Discover** classes (see page 13), and also complements **individual tuition** (page 4), **Junior Choir** (page 25) or **Roundabout** (page 22).

Roundabout (5-7yrs)

Programme Lead: Phil Entwistle

This is a 12-month class

Tutor(s): This course is taught by a range of our outstanding tutors.

A unique and very popular one-year introduction to six instruments for those who would like to try out a series of options before deciding which instrument they would like to learn. Children learn in small groups, spending half a term on each of the following: strings, brass, guitar, piano, flute and percussion.

Classes include a mixture of songs, musical games, instrumental techniques and creative projects. Over the course of the year, in three terms, children develop skills in rhythm, pitch, notation, performance and composition, as well as learning the basic technique for playing each instrument. This is structured as follows:

Term 1 - Rhythm – understanding and physicalising rhythm, using the French sounds (taa etc) used in our Discover classes.

Term 2 - Composition – Taking those rhythms and making them the student's own, through composition as an individual or as a group.

Term 3 - Improvisation – using everything the student has built up so far to explore expression and musicianship through improvisation.

Classes include a mixture of songs, musical games, instrumental techniques and creative projects. Each term, after spending a few weeks being introduced to their instrument, they come together with another instrument group for Chamber Week and then with all the other instruments for Orchestra Week, giving them their first experience of the small and large ensemble dynamic.

Each half term includes a Show & Share class, where all the children come together to perform. This provides an opportunity for friends and family to share in the children's achievements and celebrate their progress and culminates in an end-of-year Celebration Concert.

You will receive termly reports on your child's progress to keep you informed of their achievements.

Roundabout is very popular and places are often filled by those on the waiting list. Children can be added from age 4.5, please contact us.

Please note that this is a year-long course so when you enrol your child, you are committing to a year of weekly term-time classes at the same day and time every week, with a cost up to £300 a term.

YM

Play! (6–9yrs)

Programme Lead: Elizabeth Marr

This is a 12-month course

This is a year-long course of group teaching on one instrument taught by a range of our outstanding tutors, all of whom are very experienced teachers and performers. It is the perfect preparation year before embarking on one-to-one lessons. The instruments on offer are piano, violin, flute, guitar, percussion and brass (usually trumpet).

Play! is the perfect follow-on course from Roundabout or for beginners who would like to learn one instrument for a full year and graduate from the programme with their Play! Certificate. Children are taught in small groups and, by the end of this year-long programme will be able to:

- play a short piece from memory
- clap back rhythms
- read and play back a melody
- read simple rhythms and notes
- demonstrate a good knowledge of their chosen instrument

One of the many joys of learning to play an instrument is getting to play alongside other people. To enable this to happen, we run the weekly Play! Together Orchestra which brings cello, violin and flute together. Please see the combined time of the orchestra and group tuition sessions below.

At the end of term 1 & 2 (every term for Play! Together Orchestra), there is a performance

week for you to hear how your children are getting on. This gives the children an opportunity to perform and be proud of their progress. The year ends with a Celebration Concert where all the children perform within their groups, as well as with all the instruments as a mass Play! Orchestra and are awarded their Play! Certificates.

You will receive an end-of-year report on your child's progress to keep you informed of their achievements.

Please note that this is a year-long course so when you enrol your child, you are committing to a year of weekly term-time classes at the same day and time every week. Students will need their own instrument and you will be sent advice about this before the course starts. If you are interested in hiring an instrument please ask our Front of House for details.

Young Artists and Young Musicians

Specialism

Focus on your passion

Specialise?

Our **Young Artists** and **Young Musicians** are at a time second only to infancy in terms of the number of developmental changes in the brain – they begin to think differently, looking out rather than in. So, naturally they are keen to hone their skill and specialise. At this exciting developmental point, self-expression and socialising through art and music provides an important emotional outlet for our students.

Young Musicians

With strong foundations, our **Young Musicians** are ready to move on to one-to-one lessons, **Individual Tuition**. With over 80 tutors from different backgrounds, trained at the world's top music schools and a variety of **specialisms**, our tutors can accommodate differing aspirations – from formal exams to the desire for a creative oasis (and most often a combination of both!)

They can complement their learning with small group music **Theory** classes catering for all levels up to that crucial Grade 5 stage. Their choral journey can continue with **Chamber Choir**, exploring more sophisticated music and learning about how to blend with colleagues and when to use a more soloistic sound.

Young Artists

Our **Young Artists** can continue to build upon their skills in the general Foundation 6–11 course, which is designed to challenge and nurture the differing skills and interests of varying ages, or they can **specialise** in one or more areas that interest them: **Drawing Skills, Painting Skills, Mixed Media, Mould Making, Illustrations for Teens** and **Portfolio Building**, all helpful for either a creative outlet or to support more formal learning or future further education applications.

Welcome to the Conservatoire, where you can focus on your passion

Drawing Skills (9–14yrs)

Drawing Skills is one of the most popular and longest-running children's art courses at the Conservatoire. It is ideal for students who wish to explore and develop their drawing using a range of media and processes. Students work predominantly from first hand observation with additional use of photographic resources, to enable a deeper understanding of representation through mark-making and colour. The students study the work of other artists which helps to inform their own practice and expand their visual literacy.

Painting Skills (9–14yrs)

Tutor(s): Sue Harris, Windy Van Druten

Beginners Welcome!

Our Painting Skills classes are designed for students who wish to explore and develop painting techniques and take their skills to the next level. Painting expression is often less developed than drawing techniques as students have less opportunity to try them out (sometimes inevitably involving mess!) than the drawing skills they utilise in everyday life. Students explore colour application and mixing using a variety of media which may include acrylics, watercolour, tempera, ink, oils etc. We also experiment with painting on different materials such as paper, wood, cardboard, glass and canvas. As with our long-running Drawing Skills class, students study the

work of other artists to help deepen their understanding and expand their visual literacy of the painted world.

Sat: 15.00 – 16.30, 13 sessions, £227.50

Students will be inspired by their own interests and tutor-led themes and use of their own photography is actively encouraged. An understanding of research and development and formal elements required for IB and GCSE Art and Design will also be covered and will inform all art produced on the course.

Portfolio Building (8–16yrs)

YA

These courses are designed to take children through the stages of art making from the conception of an idea to the completion of a project – just like a professional artist and are helpful in Foundation art course applications.

Students work with a broad range of media from printmaking to sculpture in order to broaden their skill base and understanding. Every stage of the design process is documented through drawings and photographs and students are responsible for editing and displaying their work in their portfolio – an all-important part of the artistic process. There is a strong focus on drawing, which sits at the core of visual

language development for children. This is a wonderful opportunity to create a unique body of work that expresses creative identity, develops artistic talent, and generate a portfolio to be proud of.

Welcome to the world of illustration! Over this course, we will look at how illustration is used and explore different styles and techniques.

Referencing professional illustrators through the years, we will explore the narrative, decorative and informative aspects of illustration and work on project briefs spanning several weeks. Projects in the past have included graphic novels, destination posters, artists collectable cards and dioramas.

We will touch on using various materials such as pen and ink, charcoal, collage, lino print and paint but ultimately, students will have the freedom to choose which materials best suit them.

Are you looking to establish your studio practice and would like space and guidance to further progress your work alongside the mentoring of a successful artist/tutor and the collaborative support of your fellow students? Structured like a continental atelier, the course allows artists with self-initiated projects (at all stages of development) to explore the creative journey from initial ideas to finished pieces. You will develop your visual research methods, technical experimentation, and critical awareness whilst working towards the completion of your own projects in drawing, painting and mixed media.

Some experience of painting and drawing and a good level of self-motivation is essential as projects are self-initiated (with tutor advice).

Abstract Painting Inspired by Nature

Tutor(s): Yukako Shibata

Beginners Welcome!

Discover how the natural world can become a gateway into abstract painting. This course offers a thoughtful and accessible introduction to abstraction, suitable for both beginners and more experienced painters who would like to move beyond observation and develop a more personal visual language.

Using landscape, sky, ocean, light and natural forms as starting points, we will explore how artists simplify, reduce and reinterpret what they see.

Looking at painters such as Turner, Monet, Ben Nicholson, Mondrian, Rothko and Agnes Martin, each week focuses on a different aspect of abstraction — from simplification and geometry to colour, mood, rhythm and surface.

Working primarily in acrylic and oil, with opportunities to incorporate drawing and collage, you will experiment with composition, texture and varied approaches to paint application. The course encourages process-led discovery, balancing structured projects with space for individual interpretation. Sessions include artist references, practical demonstrations and individual feedback within a supportive studio environment.

By the end of the course, you will have developed greater confidence in approaching abstract art, strengthened your understanding of paint and composition, and created a body of works that reflect your growing artistic voice.

Some sessions will take place in the studio to consolidate and extend these projects, but most will take place off site in various locations local to Blackheath and Greenwich. Please therefore come prepared to be outside for the sessions. Your first session will take place at the Conservatoire. Come along to join Blackheath Conservatoire's Women's Choir, which has been running for over 30 years! A relaxed yet stimulating session, led by Elspeth Wyllie – an experienced, nurturing choir leader. Each rehearsal provides a gentle mental and physical workout – a focus on music-making away from weekly cares and routines. It's challenging, fun, great for mental health and emotional wellbeing, and the choir are good company! No music-reading ability necessary – we use sheet music, but also learn by ear and from memory. There's a set list of music each term, to build up vocal and choral technique, musical style and confidence. Each term usually finishes with an informal performance for friends/family to celebrate our singing!

Wed: 11.00 – 12.00, 13 sessions, £123.50

Drop-ins available (first half term only).
