

How to Track your Purdue Campus Transit Shuttle

1 Track

From the home screen, click **Fixed Route Shuttle Tracker** to see all shuttles in real-time.

Click the tile in the top left hand corner to view the filters.

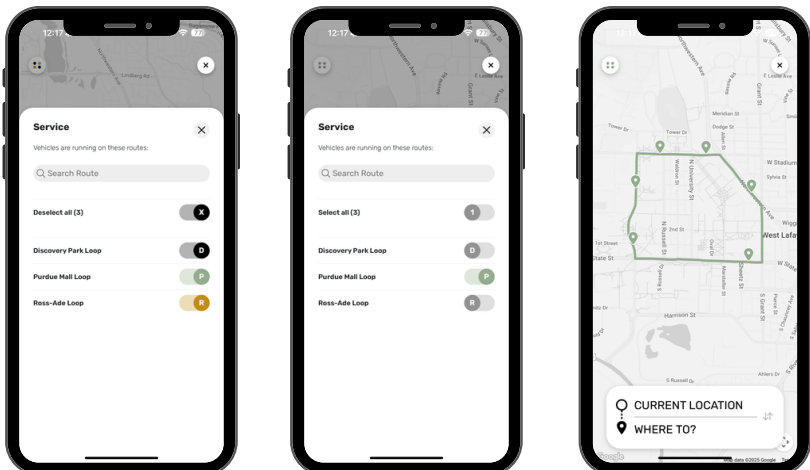

The shuttle tracker can also be accessed via weblink:

<https://purdue.liftango.com>

2 Routes

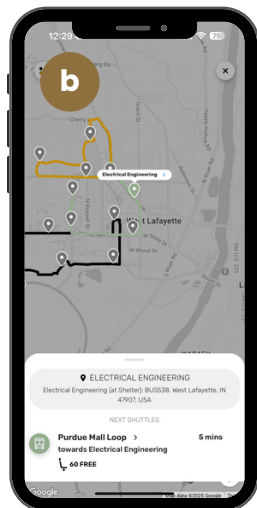

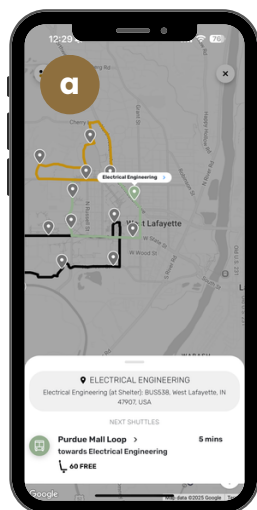

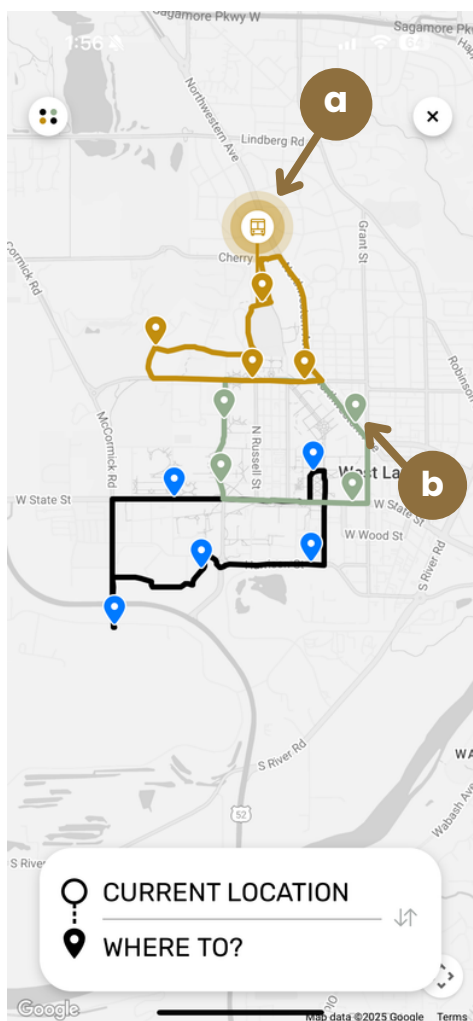

Filter the routes shown using the toggle to view the routes relevant to you. This view will be saved for the next time you track the shuttles.

3 Plan Your Journey

To view upcoming shuttle stops and estimated arrival times, tap on the **shuttle** icon (a). This will display the next destinations along the route and the corresponding timeframes for each stop.

Tap on a **stop** (b) to view the next scheduled arrival time for an incoming shuttle. The expected arrival window for that location will be displayed, allowing you to plan accordingly.

4

Notifications

When you tap **Fixed Route Shuttle Tracker**, you may see an alert banner displayed on the shuttle tracker giving you important information about routes or stops.

You may also see important alerts on the homepage.
