

## RESOLUTION

## Designating Huntsville International as Alabama's Hub Airport

Whereas, Huntsville International Airport has formally requested that it be considered as the site of the State of Alabama's International Hub Airport currently under study; and

Whereas, Huntsville International Airport provides passenger air transportation service for the entire Tennessee Valley Region as well as rail, truck and air cargo transportation services that enhance the region's access to domestic and international markets; and

Whereas, Huntsville International Airport further acts as an economic catalyst providing sales, purchases and payroll dollars in addition to providing over 90,000 jobs to the State of Alabama; and

Whereas, Huntsville International Airport is the only logical and viable choice for the proposed State Hub Airport and can accommodate a small or medium hub program and substantial future growth without expanding the present runway infrastructure configuration; and

Whereas, no other airport in the state or the entire Southeastern United States has the capability to expand to meet the need for additional hub capacity:

Now, therefore, be it resolved that the Town of Eva, Alabama, \_\_\_\_\_ strongly supports the long-term development efforts of Huntsville International Airport; and endorses the selection of Huntsville International Airport as the site for Alabama's proposed International Hub Airport.

Adopted this \_\_\_\_\_ 14th \_\_\_\_\_ day of \_\_\_\_\_ 1991

ATTEST:

Eva Town Clerk

Mayor
