The council then discussed the budget and brought up a few changes that needed to be made. The Special Privilege License (4300) annual budget needs to be changed to 10,000 and put 145,000 in special projects (4700) and 145,000 in sales and use tax (4100). The council asked the clerk to get with csa about taking out fuel and maintenance (5400) and just putting it in with maintenance and repairs (5500). The Council then looked over the ordinance for the one-time pay increase for employees. Then the Council walked over to look at the library.

Gave packets to all council members containing the budget as well as the ordinance.
