

PRESSURE WASHING TUB - 250 LITRES DIGITALLY CONTROLLED - CABINET BR-D180-Y

It has a well-shaped weldless chamber design to achieve the required water vortex for highly efficient washing. Stainless bowl area made of one piece of non-toxic material suitable for food use. It has an adjustable pressurized water jet system with stainless washing nozzles. The unit has a system and level sensor that automatically takes water into the unit through a solenoid valve. It has perforated stainless steel bottom filters. Digital screen, it provides adjustable washing time and 5 different washing stages. All 304 AISI stainless steel construction.

Technical Specifications

PRODUCT NAME:	Pressure Washing Tub
PRODUCT CODE:	BR-D180-Y
ORIGIN:	Made in Turkey
PRODUCTION CERTIFICATE:	EC/42/2006, EU/35/2014, AT/42/2006
SIZE:	1800x700x850 mm
CHAMBER DIMENSION:	1600x510x300mm
TYPE:	With Cabinet.
HOPPER CAPACITY:	250 Lt.
PRODUCT CAPACITY:	60 Kg/Trip
WASH TIME:	-0/99 dk
OPERATING VOLTAGE:	220 Volt 50 Hz
ENERGY CONSUMPTION:	350W
PRODUCT WEIGHT:	85 Kg.
AUDIBLE WARNING SYSTEM:	Optional
WATER FILLING:	Automatic
WASH SPEED:	5 Different Levels
TIMER:	Available / Standard
CONTROL SCREEN:	Digital Control
DRAINAGE PUMP:	Optional
WATER LEVEL SENSOR:	Standard
WATER DRAINAGE PIPE:	Standard
CONSTRUCTION:	304 Stainless Steel
VOLUME LEVEL:	80 db
POLYETHYLENE CUTTING BOARD:	Optional
PRESSURISED SPRAY UNIT:	Optional
GN PERFORATED BATH- BATH	
COMPATIBLE:	Optional
GN TUB COMPATIBLE:	Available / Standard
GUIDE RAIL CABINET FOR	
STORING GN BATHHUB:	Available / Standard
