THE LONDON DOCKS – GATEWAY TO THE WORLD

The docks gave London a connection to the world. It is a connection that created the first truly global city and a connection that continues to this day.

Built in 1803, the London Docks helped inform and shape what we know as the Spirit of London. It is an influence that endures to this day.

The London Docks thrived throughout the 19th and early 20th century receiving everything from precious jewels to art, ornaments, elixirs, and the latest fashions from all around the world.

Beneath the docklands, vaults were specifically designed to store barrels of high-value imported alcohol.

In the early 19th century, the gentlemen of the day would be allowed to sample the best wines & ports straight out of the barrel.

The London Docks had over 20 acres of warehouses and cellars to store the copious amounts of goods that arrived every day.

'The Gauging Ground' at the London Docks was where 'gaugers' measured the quantity in each barrel. Today's Gauging Square pays tribute to this.

QUALITY AT OUR HEART

ST GEORGE &
BERKELEY GROUP

DESIGNED FOR LIFE

CUSTOMERS DRIVE ALL OUR DECISIONS

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need – well-built homes, in a pleasant and safe neighbourhood, with plenty of amenities and good transport connections. Then we apply that understanding to all our planning and design decisions. And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

CHOICE AND DIVERSITY

No two St George customers are the same, so we aim to offer a wide choice of property location, size and type. From central London to major towns and cities; from market towns to rural villages, countryside to the coast – we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

QUALITY FIRST TO LAST

Quality is the defining characteristic of St George developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

AT ST GEORGE, WE ARE COMMITTED TO CREATING GREAT PLACES WHERE PEOPLE LOVE TO LIVE, WORK AND RELAX. HERE THE HOMES ARE LIGHT-FILLED, ADAPTABLE AND FINISHED TO VERY HIGH STANDARDS. WHERE CAREFULLY PLANNED PUBLIC AREAS ENHANCE WELLBEING AND QUALITY OF LIFE FOR RESIDENTS AND VISITORS. WHERE PEOPLE FEEL A SENSE OF COMMUNITY.

GREEN LIVING

We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, promote recycling and enable residents to choose sustainable transport options.

COMMITMENT TO THE FUTURE

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.

CREATED BY ST GEORGE: OUR DIFFERENCE

AT ST GEORGE, WE DESIGN FOR LIFE

Transforming unique parts of the capital is our speciality. We sustainably regenerate previously neglected areas into high-quality and mixed-use housing, creating new spaces where people are both happy and proud to live. London is a city in global demand and uncovering space to create suitable housing to meet that demand is harder than ever. We achieve the seemingly impossible by searching out overlooked and under-appreciated areas that can be transformed into beautiful housing that meets the needs of aspirant city-dwellers. We believe people, partnerships, and a shared vision are key to successfully delivering thoughtfully designed homes and to create thriving communities. We have been designing and building such spaces for decades. We are driven to create a lasting legacy for the capital and its people, through collaboration and partnerships.

OUR VISION IS TO DEVELOP SITES THAT HAVE BEEN CLOSED TO THE PUBLIC FOR DECADES AND RECONNECT THEM TO THE COMMUNITY

We want the places built by St George to be renowned for the quality of their landscape and the open space. The term 'landscape' comes from two words meaning 'to shape a place where people belong'. That idea inspires our approach. The space between buildings is where you create a community and somewhere that is sociable, sustainable and safe. We believe beautiful landscaped open spaces give room to breathe and sit in harmony with our vision for the carefully considered architecture and thoughtfully designed interiors throughout our developments. To pioneer a landscape-led approach to urban developments is hugely important to us. We truly believe these spaces between the buildings are as important as the buildings themselves, where one's wellbeing within that space can be emphasised through positive design.

ST GEORGE AIMS TO BUILD YOUR HOME TO A HIGH STANDARD OF DESIGN AND QUALITY AND HAS OVER 40 YEARS OF EXPERIENCE OF DELIVERING

When you buy a new home from us it comes with a 10-year building warranty – the first two years of which are covered by St George. However, over and above this, we will take a reasonable approach to resolving issues, even if they fall outside of the warranty criteria or time periods. In other words, we will stand by our product and work with you to find an appropriate, fair and reasonable resolution to any issues that may arise in the future. All of our customers are provided with a commitment that when they buy a new home from St George, they can be safe in the knowledge that it is built to a high standard of design and quality, has low environmental impact and that they will enjoy an exceptional customer experience.

CUSTOMERS

Choosing your home is one of the most exciting and important decisions you can make, but it is also a challenge. From location to amenities, connections to education, there are so many factors to weigh up.

At St George, we understand what you're looking for in a new home and we are dedicated to designing and building exceptional places that meet your needs.

We design for everyone: from families to first-time buyers, students to retirement communities, always considering the ever-changing need for space innovation and integrated technology. The service we provide goes beyond the contract, committing to the developments we create and our long-term involvement with those who live there. To us, places are about people.

TRANSFORMING TOMORROW

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people's lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us. We transform underused sites into exceptional places and we're also transforming the way we work: embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our 10-year plan which sets out how we will achieve this.

TRANSFORMING PLACES

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

TRANSFORMING LIFESTYLES

Taking action on climate change and giving you ways to live more sustainably. We're building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

TRANSFORMING NATURE

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

TRANSFORMING FUTURES

Helping people to reach their potential through apprenticeships and training, and programmes supported by the Berkeley Foundation.
