INSPIRATION

From puberty to maternity to having disabilities, women experience many biological changes and challenges throughout their lives. Activewear designed for these unique stages has become an increasingly important focus for the industry. Designs aim to provide women with functional, comfortable, and supportive options that address their unique physiological and emotional needs during these significant life transitions.

INSPIRATION

The well-cation trend is driven by the broader shift towards wellness-focused travel experiences. Consumers are increasingly seeking out vacation options that prioritize their physical, mental, and emotional wellbeing, such as yoga retreats, nature-immersive getaways, and adventure holidays. This demand for holistic wellness experiences has created a need for activewear that seamlessly integrates with these types of travel.
