

## Stanford-10 Test Information

The Stanford-10 National Achievement Test is a nationally recognized test used by educators across the United States, particularly in private schools and homeschools.

As a norm-referenced test, the Stanford-10 not only provides your child's scores in each academic area, but also shows how their scores compare to other students' scores across the nation.

The Stanford Achievement series has a rich history of demonstrating academic excellence and has earned its acceptance as a nationally normed achievement test, meeting most states' testing requirements.

While the Stanford-10 is not a timed test, Bloom has created flexible scheduling guidelines with a dedicated proctor for your student to be supported throughout the entire test. The proctor will get your student started, observe his/ her progress and be available throughout the entire test.
