

CAPABILITY STATEMENT

Built on a foundation of trust, reliability, and relentless execution, we are a nationwide over the road freight services provider committed to simplifying the complex world of logistics. We connect shippers with precision and care 24/7/365. We move business forward. Our fleet of over 100 trucks and growing has built a reputation as a trusted partner for businesses across North America, and our operations team leverages cutting-edge technology and deep industry experience to ensure every load delivers on time, every time. But what truly sets us apart is our mindset: we treat every shipment like it's our own. Our customers, from Fortune 500 manufacturers to regional distributors, know that with USA Logistics, they get proactive communication, real-time visibility, and a team that's always one step ahead. We're not the biggest name in freight. Yet. But we're building something different: a modern logistics company powered by people, driven by data, and obsessed with delivering results..
