

Monitoring Violations Annual Notice Template

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for [IL0730200 – ATKINSON]

Our water system violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During [1/1/2025-1/31/2025] we [did not complete all monitoring or testing] for [contaminant(s)] and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

| Contaminant | Required sampling frequency | Number of samples taken | When all samples should have been taken | When samples were or will be taken |
|-------------|-----------------------------|-------------------------|---|------------------------------------|
| [Chlorine] | [Monthly] | [0] | [1/1/2025-1/31/2025] | February of 2025 |
| [E. Coli] | [Monthly] | [0] | [1/1/2025-1/31/2025] | February of 2025 |

What happened? What is being done?

We failed to collect samples and test for Chlorine during the required monitoring period. Samples were collected in February of 2025 with results satisfactory to EPA guidelines.

We failed to collect samples and test for E. Coli during the required monitoring period. Samples were collected in February of 2025 with results satisfactory to EPA guidelines.

No other action is needed.

For more information, please contact Joe Glynn at 815-255-9626 or 2323 4th St, Peru, IL 61354.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
