

# Sylla.io Accessibility Compliance Report

## Executive Summary

This report outlines the current accessibility status of the Sylla.io platform, our compliance efforts, and our roadmap for accessibility improvements.

## Platform Overview

Sylla.io is a web-based platform that enables higher and further education institutions to discover, access, and manage Open Educational Resources (OER). Our primary users are librarians, teaching staff, and learning resource coordinators at educational institutions.

## Current Compliance Status

### Standards Alignment

- WCAG 2.1 Level AA (in progress)
- UK Accessibility Regulations
- EN 301 549 (where applicable)

### Platform Features

Currently Supported:

- Web-based interface
- PDF document viewer
- Resource metadata management
- Search and discovery tools
- Integration with major OER repositories

### Accessibility Features

Our platform includes:

- Keyboard navigation support
- Screen reader compatibility
- Responsive design
- Text scaling support
- Color contrast compliance

## Evaluation Methods

Current evaluation processes include:

- Internal accessibility reviews
- Standard browser testing tools
- Keyboard navigation testing
- Regular platform updates

## Known Limitations

We acknowledge the following current limitations:

- Limited format options for content viewing
- Some third-party content may not meet accessibility standards
- Complex interface elements may need additional optimization
- Platform is under active development

## Planned Improvements

Short-term goals (6 months):

- Implement accessibility testing tools
- Enhance keyboard navigation
- Improve screen reader compatibility
- Add skip navigation links

Long-term goals (12+ months):

- Expand content format options
- Enhance user customization options
- Implement automated accessibility testing
- Develop accessibility training for staff

## Third-Party Content

While we ensure our platform interface meets accessibility standards, we aggregate content from various sources including:

- OAPEN
- OpenTextbook Library
- OpenStax

- PressBooks

The accessibility of third-party content may vary and is not under our direct control.

## Support and Feedback

We are committed to addressing accessibility concerns and welcome feedback:

- Email: [info@sylla.io](mailto:info@sylla.io)
- Response time: Within 2 business days

## Document Information

- Version: 1.0
- Date: January 15, 2025

This report will be updated regularly to reflect platform improvements and additional accessibility features.
