Understanding Prior Authorization, Step Therapy, and Quantity Limit

To ensure safe and appropriate use of certain medications, your prescription benefit program may have prior authorization, step therapy, and/or quantity limits for certain medications.

- **Prior authorization** requires you and your healthcare provider to obtain approval from Judi Rx prior to your medication being dispensed.
- **Step therapy** is when your prescription benefit requires you to try another medication (usually a generic) prior to starting the medication your healthcare provider prescribed (usually a brand).
- **Quantity limits** only allow you to receive up to a maximum dosage or quantity for certain medications, based on clinically-approved prescribing guidelines.

Call Customer Care to determine if your medication(s) are subject to prior authorization, step therapy, and/or quantity limit requirements.
