

# EdisonGrip<sup>TM</sup> Cable Ties + Inventory Replenishment Solutions

Smart Wire Management. Automated Inventory Replenishment.  
Less downtime. Fewer stockouts. Zero hassle.

## What You Get

### EdisonGrip™ cULus-certified cable ties + Edison Elm Replenishment Hardware

A unified program that keeps crews stocked — without chasing inventory.

- Real-time stock visibility
- Automated re-order alerts
- Delivered through your preferred distributor under blanket-PO invoicing
- Products tested and manufactured to consistent quality standards

## Why Contractors Choose EdisonGrip™ + Inventory Replenishment

- Crews stay focused on installs — not supply runs
- Controlled consumption reduces waste and over-ordering
- Supply certainty improves project close-out profitability
- Procurement stays simple — fewer surprises, fewer headaches

## Two Flexible Replenishment Modes

- 1 Internal-routing:** alerts flow to your procurement/ERP system
- 2 Distributor-managed:** auto-ship when bin thresholds trigger

Either way — stock is replenished before it becomes an issue.

## EdisonGrip™ Cable Tie Portfolio

- ✓ Standard Nylon & UV-resistant
- ✓ Stainless-Steel Barb (high-performance)

**Ask your distributor to deploy EdisonGrip™  
+ Inventory Replenishment**
