

Bundled *electrical supply* advantage

Edison Elm integrates two core electrical product lines — **EdisonFlex™** Wire & Cable and **EdisonGrip™** Wire Management — into a single bundled program designed for EPCs, contractors, and project owners.

Electrical Product Bundles

EDISONFLEX™
WIRE & CABLE

+

EdisonGrip™
DON'T JUST FASTEN - SECURE YOUR SUCCESS.

Why bundle?

Reduced total project cost. Fewer procurement touchpoints. Stronger execution outcomes.

- ✓ Up to **40% packaged savings** on EdisonGrip™ when purchased with EdisonFlex™
- ✓ Single coordinated source for DC + AC cable and wire management
- ✓ UL/CSA-certified, specification-driven products trusted by engineers
- ✓ Lot traceability, documentation, and technical support
- ✓ Streamlined logistics, fewer deliveries, fewer surprises

Bundle pricing applies across qualifying EdisonGrip™ families — including standard, UV, and enhanced-performance cable ties.

*Built for commercial, industrial,
renewable and infrastructure projects.*

- ✓ Standard Nylon 6.6 — indoor/outdoor durability
- ✓ Extra UV — enhanced UV stability for long-term sunlight exposure
- ✓ Steel-Locking Barb — maximum mechanical retention in harsh environments
- ✓ Wide size range to support small bundles through large power runs
- ✓ RoHS compliant, cULus listed, tested to global standards

Engineered to pair seamlessly with EdisonFlex™ wire and cable on large, multi-phase projects.

01 Provide your project specifications

Bill of materials, drawings, and required performance criteria.

02 We align specs + cross-reference

We match the right EdisonFlex™ products and EdisonGrip™ part numbers.

03 We build a bundled proposal

Deeper discounts applied to qualifying EdisonGrip™ items when combined with EdisonFlex™.

04 Ongoing project support

Documentation, replenishment strategies, and logistics coordination — start to finish.

Ideal for:

- ✓ Utility-scale solar & renewables
- ✓ Commercial & industrial electrical projects
- ✓ OEM assemblies and prefab shops
- ✓ Infrastructure + data/telecom builds
