

## **IMPORTANT: Minimum System Requirements Update (2025)**

To align with industry best practices for security and data integrity and to maintain PCI compliance, as of July 1, 2025, we will be updating our minimum system requirements.

### **Minimum System Requirements, effective July 1, 2025:**

- **Windows:** Windows 10+ and Microsoft Edge are required. The latest version of Windows products can be downloaded from the [Microsoft Download Center](#).
- **Mac:** Mac OS X 10.15.7+ and Safari 15 or later are required. The latest version of Mac products can be downloaded from the [Mac Support](#) site.
- **iPad:** iOS 16.0

### **UPDATE!! Online Testing Now Available for iPad & Chromebooks!**

We are excited to announce the launch of the “MHS Beyond” app in both the Apple and Google Play stores! This app provides secure, locked-down testing for students on iPad and Chromebook devices. Search for “MHS Beyond” in the app store so your students can securely test SAT10 and OLSAT8.

### **Maintaining Integrity During Online Standardized Testing from Pearson Clinical Assessments (publisher for the Online Stanford 10)**

- *Follow professional best practice recommendations and respective ethical codes*
- *Follow online regulations and legal requirements from the federal, state and local authorities, licensing boards, and professional liability insurance providers, and payors*
- *Develop competence with assessment via telepractice through activities such as practicing, studying, and consulting with other professionals, and engaging in professional development.*

To administer the SAT10 Online test in students’ individual homes, Pearson recommends you ask a responsible adult in the student’s home to be present during testing to help monitor the student and keep them on task during testing. This is especially important for younger students.
