Muy agradecido por el reconocimiento de la ciudad de Miami, un lugar que es muy especial para mi familia y para mí. Desde el primer día la gente nos hizo sentir increíble, como hoy otra vez en el @americabusiness, con todo el cariño y el apoyo de los vecinos de esta ciudad tan linda, y también de la gente de @intermiamicf y su hinchada desde el principio.

Football is more than just a game. It evokes great emotions, unites cultures and communities, spreads joy, and teaches important values to people all around the world. A football instantly makes people smile. 🥰👏

At the America Business Forum 2025 in 🇺🇸 Miami, I had the chance to speak about the above and shed light on some of the work FIFA does globally to help support peace, education, and football infrastructure development, as well as provide opportunities to anyone with a football dream.

I also encouraged business leaders to continue investing in our game and in the future of children, as it has the potential to change lives.

Elite networking and influence.

The Power100 Dinner is one of ABF's most exclusive experiences: a private evening where global leaders, CEOs, investors, policymakers, and cultural icons converge. For your brand, it represents unparalleled access to decision-makers and the opportunity to build relationships at the highest level of influence.

Agenda:

VIP Night Forum.

ABF Official Closing Party.

The VIP Night Forum is the official closing celebration of America Business Forum, a private gathering designed for leaders, partners, and global icons to unwind, connect, and celebrate in a premium atmosphere. For your brand, it represents an opportunity to host, delight, and strengthen relationships in a relaxed yet prestigious setting.

Agenda: Power Players Private Forum.

A Closed-Door Forum for Global Decision-Makers

Power Players Private Forums are closed-door, high-trust forums hosted at Miami's most prestigious venues — designed for the leaders who don't just attend conversations, but drive them. Each Forum is fully owned and curated by the presenting partner, in co-production with ABF.

What a Forum Can Look Like

Thematic Agenda

- Critical Minerals & Resource Sovereignty
- AI & Data Centers
- Infrastructure Investment
- Supply Chain Resilience & Nearshoring in the Americas

Who Convenes

- Senior decision-makers and sector leaders relevant to the vertical
- CEOs of leading companies shaping the industry under discussion

For each thematic area, one CEO is selected as sector voice — a leader whose company is actively shaping the industry under discussion. They share the floor with senior leaders from across the region, in a format designed for genuine dialogue. The Forum is broadcast live and covered by leading international media.

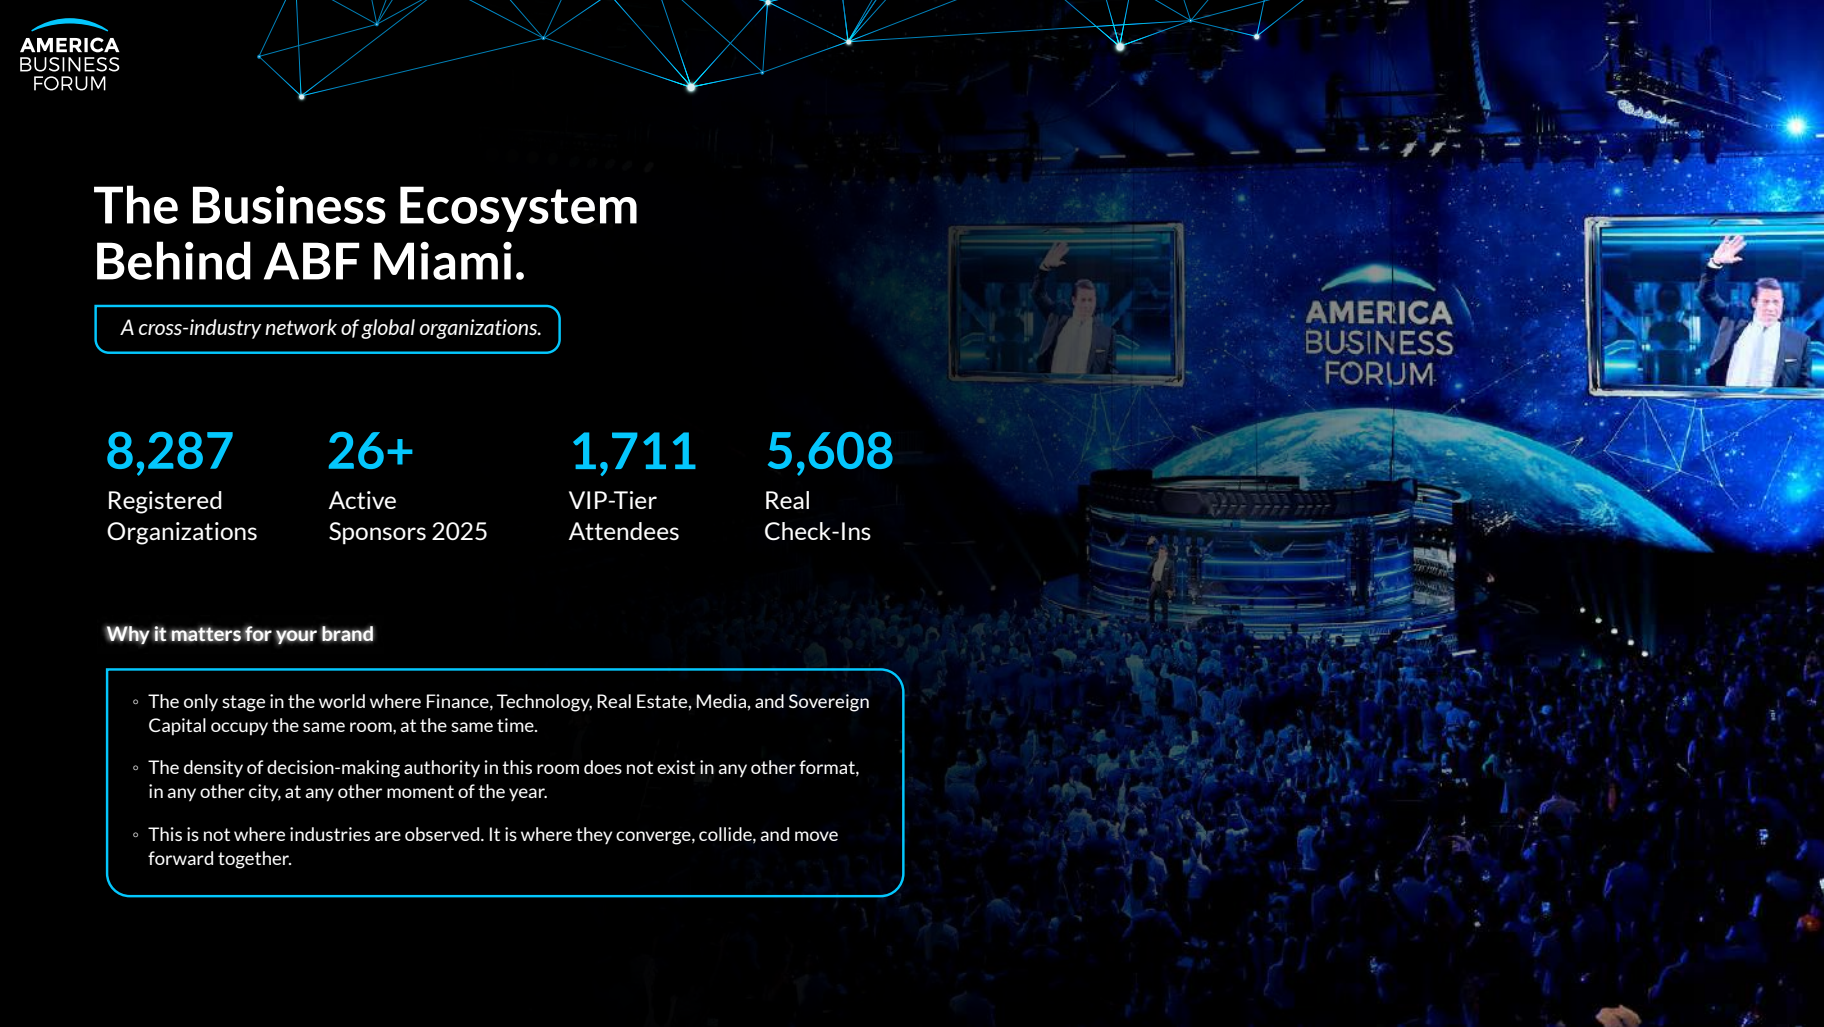

"In 1994 when the (FIFA) World Cup was played in the United States. It was fantastic, and it was a turning point for the US"

- The only stage in the world where Finance, Technology, Real Estate, Media, and Sovereign Capital occupy the same room, at the same time.
- The density of decision-making authority in this room does not exist in any other format, in any other city, at any other moment of the year.
- This is not where industries are observed. It is where they converge, collide, and move forward together.
