

CERTIFICATE #15724 - 08/26/2026

THE BONNEVILLE ENVIRONMENTAL FOUNDATION (BEF) HONORS

Clean My Robot LLC on behalf of retail customers June 2026

For restoring water to critically dewatered rivers and streams by purchasing Water Restoration Certificates® (WRCs) from BEF. Your purchase, combined with that of other BEF partners, helps restore the ecological, recreational and economic health of critical freshwater ecosystems.

All WRC projects are certified by a qualified third party against a strict set of criteria to ensure flow is restored to the environment in locations and at a time that will have optimum environmental benefit. For more information regarding our WRC supply sources, visit: b-e-f.org/water-portfolio.

Todd Reeve | BEF CEO

STANDARD FIVE-GALLON WATER COOLER
CONTAINERS

At BEF, we believe addressing the current state of our planet requires innovation, creative problem solving and discovering new ways of doing business that value the natural resources we depend on. Through a full suite of innovative energy, carbon and water solutions we are helping our partners—from the farmer to the corporation—redefine how business gets done. We help our partners meaningfully balance their environmental impact, invest in clean energy and carbon reduction, educate the next generation of clean energy leaders, and effectively and sustainably restore the health of our freshwater resources. Learn more at: www.b-e-f.org.

HERE ARE THE DETAILS OF YOUR WATER RESTORATION CERTIFICATES® ORDER:

Prickly Pear Creek

Prickly Pear Creek flows from the Elkhorn Mountains north to the Helena Valley before entering Lake Helena. BEF is restoring enough water for Prickly Pear Creek to maintain connectivity throughout the irrigation season for the first time in many years. Third party verification by Watercourse Engineering.
