

THE ANTARES 11 FLYBRIDGE

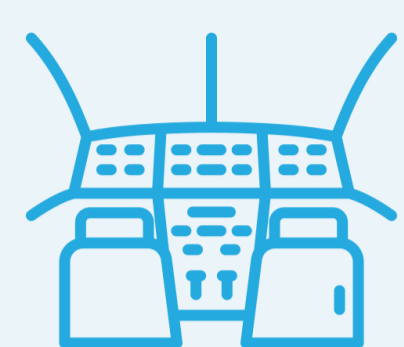

THE ANTARES 11 FLYBRIDGE

The Antares 11 Flybridge takes everything that makes the Coupé exceptional and elevates it with the addition of an upper helm and lounge area. At over 36 feet, this model combines long-distance cruising capabilities with an open-air lifestyle, offering the best of comfort, performance, and panoramic views. Its sleek, seaworthy hull ensures stability and dependable handling, making it ideal for extended adventures on the water.

The flybridge is the defining feature, offering a commanding helm station with excellent visibility, as well as a spacious lounge and sunbathing area. It becomes a natural gathering place for relaxation, dining, or simply enjoying the sea breeze. The main deck retains the Antares hallmarks of modular seating in the cockpit, safe and wide walkways, and a large swim platform for easy water access.

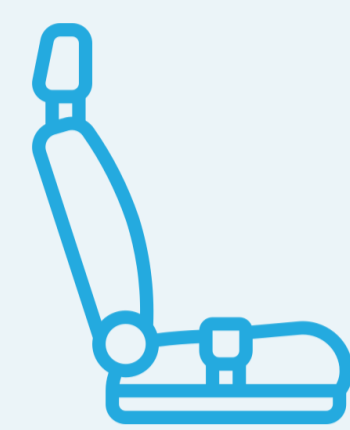

Inside, the Antares 11 Flybridge is filled with natural light from expansive windows, creating a bright and inviting saloon. A modern galley, comfortable dinette, and well-placed helm with side deck access make cruising effortless. Below, two private cabins, including a full-beam master and a spacious guest cabin, provide comfortable overnight accommodations, while a separate bathroom with shower ensures convenience.

FEATURES

VAST U-SHAPED COCKPIT

Can accommodate 7 people easily

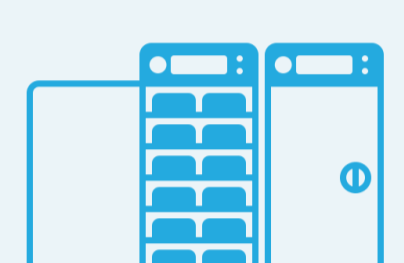

COMFORTABLE SALOON

Modularity is enhanced by a swivelling pilot's seat, and a co-pilot bench-seat that tilts in an instant to face the second bench-seat, or to create a berth.
