

THE OCEANIS 30.1

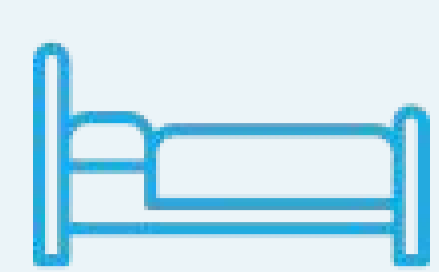

THE OCEANIS 30.1

The Oceanis 30.1 represents a remarkable blend of modern design, intelligent engineering, and accessible sailing performance, making it an ideal choice for both seasoned sailors and newcomers looking to embrace life on the water. As the smallest member of the celebrated Oceanis line from Beneteau, the 30.1 is thoughtfully designed to offer the comfort, functionality, and style typically found on larger cruising yachts, all within a manageable and easy-to-handle package.

At just over 30 feet in length, the Oceanis 30.1 is exceptionally versatile, capable of coastal cruising, weekend adventures, or even longer journeys with careful planning. Its sleek hull lines and contemporary deck layout optimize both speed and stability, while a spacious cockpit and intelligently arranged deck fittings make handling the boat straightforward and enjoyable, even for a small crew or family. Below deck, the Oceanis 30.1 surprises with its clever use of space: an open, light-filled interior featuring a comfortable saloon, a functional galley, and thoughtfully configured sleeping quarters. Modern touches, such as abundant storage, modular layouts, and quality finishes, enhance onboard comfort without compromising performance.

In essence, the Oceanis 30.1 is a yacht that balances practicality, elegance, and sailing enjoyment. With the Oceanis 30.1, Beneteau has crafted a small cruiser with big ambitions, proving that exceptional sailing experiences don't have to wait for a larger vessel.
