

THE OCEANIS 34.1

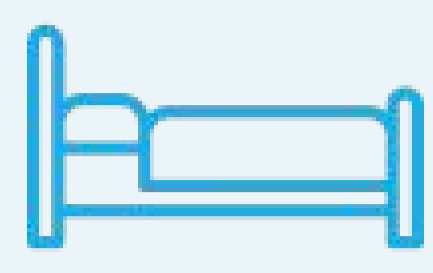

THE OCEANIS 34.1

The Oceanis 34.1 represents a harmonious blend of performance, comfort, and contemporary design, embodying Beneteau's commitment to creating yachts that cater to both passionate sailors and those seeking leisurely cruising adventures. As a modern successor in the Oceanis line, the 34.1 is thoughtfully designed to deliver a sailing experience that is as intuitive as it is exhilarating, making it a perfect choice for families, couples, or small crews looking to explore coastal waters or venture on longer passages.

At 10.34 meters (34 feet) in length, the Oceanis 34.1 offers a remarkably spacious interior for a yacht of its size. The innovative layout maximizes natural light and airflow, creating an open, airy ambiance below deck. Her accommodations typically include two comfortable cabins, a well-appointed galley, and a versatile saloon that can transform into additional sleeping space, ensuring both comfort and practicality for extended trips. The modern, clean lines of the interior reflect a Scandinavian-inspired aesthetic, with carefully chosen materials and finishes that balance elegance and durability.

On deck, the Oceanis 34.1 showcases an intelligent design focused on safety, ease of handling, and enjoyment of the open water. The cockpit is ergonomically laid out, with twin wheels and accessible controls that allow for effortless maneuvering, even with a minimal crew.
