

# THE FIRST 14

# THE FIRST 14

The First 14 is a modern planing dinghy that combines lightweight construction with versatile rig options to deliver both performance and accessibility. Built using vacuum-infused sandwich laminate technology, the hull is exceptionally stiff and light, allowing for quick acceleration and early planing. Its wide beam and flat run aft provide stability and control at speed, while the open, self-draining cockpit ensures safe handling and comfort in all conditions.

Rigged with a two-part carbon mast and a fully battened mainsail, the First 14 offers an efficient, responsive sail plan that can be adapted to suit different skill levels. The boat can be sailed with just the mainsail and jib for balanced handling, or with the addition of an asymmetric spinnaker for downwind performance. Adjustable controls are led cleanly into the cockpit, giving precise trim capability without overwhelming less experienced sailors.

Designed for flexibility, the First 14 can be sailed singlehanded or doublehanded, making it suitable for both training and competitive sailing. A retractable daggerboard and kick-up rudder allow for easy launching and recovery, while the lightweight design ensures convenient transport and quick setup.

With its blend of advanced materials, simple rigging, and adaptable performance, the First 14 bridges the gap between an entry-level dinghy and a true performance.

# FEATURES

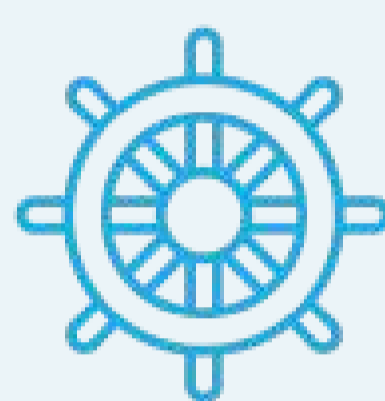

## SAIL PLAN

Std: TWO SECTION ALUMINIUM MAST WITH SPREADERS  
SELF TACKING & FURLING JIB  
CARBON BOWSPRIT  
Sails: NORTH SAILS DACRON MAINSAIL + DACRON JIB  
Opt: NORTH SAILS GENNAKER

## SAIL AREA

Mainsail: 83 ft<sup>2</sup> / 7.7 m<sup>2</sup>  
Jib: 31 ft<sup>2</sup> / 2.9 m<sup>2</sup>  
Spinnaker: 142 ft<sup>2</sup> / 13.2 m<sup>2</sup>

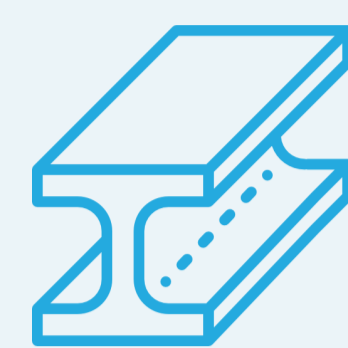

## COCKPIT

Std: TILLER STEERING  
TWO DAGGERBOARD CASINGS (forward casing for full sail set setup or aft casing for mainsail only configuration)  
Opt: TRANSPORT COVER  
OVER BOOM COVER  
BEACH TROLLEY  
REMOVABLE WHEELS

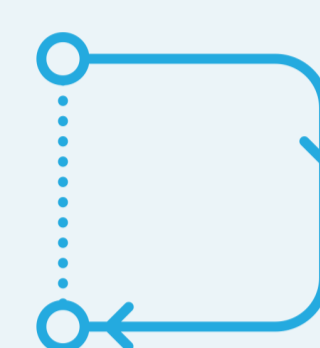

# SPECIFICATIONS

LENGTH OVERALL  
14'1" / 4.30M

BEAM OVERALL  
5'7" / 1.70M

LIGHT DISPLACEMENT  
110KG

DAGGERBOARD  
LIFTED DRAUGHT 0'4" / 0.11M  
LOWERED DRAUGHT 3'2" / 0.98M
