

What's Included

TC Advantage members receive access to **preferred rental car pricing** through Enterprise and National.

This pricing is **pre-negotiated** and designed to deliver better value than typical online retail rates.

What “Preferred Pricing” Means

Rental car prices change constantly based on:

- Location
- Time of year
- Local demand
- Events happening in that market

TC Advantage pricing is **locked through a negotiated rate**, meaning it does **not fluctuate the same way retail rates do**.

Why This Is Valuable

During high-demand travel periods — tournaments, holidays, peak seasons — retail rental prices often spike.

Because TC Advantage rates are pre-negotiated, they are **often significantly lower than what a typical customer would find booking online**.

Savings can be **up to 20%**, depending on location, timing, and availability.

PREFERRED RENTAL CAR PRICING
THAT PROTECTS YOU FROM MARKET SPIKES

Good to Know

- Preferred pricing is not a guaranteed percentage discount
 - Actual savings vary by market and rental details
 - Availability depends on location and vehicle inventory
-

Where to Book

Preferred pricing is accessed through official TC Advantage booking links found in your **Player Portal** or event communications.
