

FEBRUARY 12 & 13 2026

GASI 2026 BANGKOK

GLOBAL AESTHETIC SAFETY INITIATIVE
INTERNATIONAL CONGRESS ON COMPLICATION
MANAGEMENT IN AESTHETIC MEDICINE

ABOUT IMCAC & THE GLOBAL AESTHETIC SAFETY INITIATIVE (GASI)

International Medical Competency Accreditation Council (IMCAC)

The International Medical Competency Accreditation Council (IMCAC) is a global, independent authority dedicated to advancing excellence, competency, and ethical standards in Aesthetic Medicine, Regenerative Medicine, Cosmetic Dermatology, and Minimally Invasive Procedures.

IMCAC develops world-class competency frameworks, certification standards, clinical progression pathways, and quality benchmarks for training academies, universities, hospitals, and aesthetic medical practitioners across Asia, the Middle East, and Europe.

Through its Clinical Progression Matrix (CPM – 7 Level System), IMCAC ensures that medical professionals are trained, assessed, and certified according to globally recognized competency criteria, focusing on safety, skill, scientific integrity, and patient protection.

GASI – Global Aesthetic Safety Initiative

The Global Aesthetic Safety Initiative (GASI) is a flagship IMCAC program designed to establish international safety protocols, complication-management standards, and ethical guidelines for modern aesthetic practice.

GASI brings together global experts to promote evidence-based practice, risk mitigation strategies, emergency preparedness, and uniform safety frameworks for injectables, lasers, threads, and regenerative treatments.

GASI works to eliminate unsafe practices by:

- Creating global safety guidelines
- Standardizing complication management protocols
- Promoting ultrasound-guided practice & anatomical precision
- Supporting patient safety education
- Advancing competency-based certification and training

This Fellowship integrates IMCAC's competency framework with GASI's global safety standards, ensuring that every participant achieves advanced clinical skill, complication-management competency, and ethical excellence required in modern aesthetic medicine.

VENUE: SC PARK HOTEL

474 SOI RAMKHAMHAENG 39, PHLABPHLA, WANG THONGLANG, BANGKOK 10310, THAILAND

DAY 1 — PREVENTION, RISK MITIGATION & INJECTABLE COMPLICATIONS

THEME: PREVENTING COMPLICATIONS THROUGH PRECISION, PLANNING & EVIDENCE-BASED PRACTICE.

08:30 – 09:00 AM

Registration & Welcome Coffee

09:00 – 09:20 AM

Opening Ceremony

- Message from Chair – GASI 2026
- Introduction to the Global Aesthetic Safety Initiative

09:20 – 10:00 AM

Session 1: High-Risk Anatomy & Facial Danger Zones

- Arteries & veins at risk
- Ultrasound-guided mapping
- How incorrect depth causes complications
- Safety-injection pathways

10:00 – 11:00 AM

Session 2: Botulinum Toxin Complications – Prevention & Management

- Ptosis protocol
- Asymmetry corrections
- Neck toxin complications
- Rare but life-threatening toxin-related issues

11:00 – 11:30 AM

Tea Break & Networking

11:30 AM – 12:30 PM

Session 3: Dermal Filler Complications – Vascular Occlusion & Blindness

- Early detection
- Emergency protocols
- Hyaluronidase dosing
- Vision loss algorithm
- Safe filler selection

12:30 – 01:30 PM

Lunch Break

01:30 – 02:30 PM

Session 4: Complex Filler Complications

- Biofilm, granuloma, infections
- Tyndall effect correction
- Filler migration & dissolving strategy

02:30 – 03:30 PM

Session 5: Thread Lift Complications

- Thread migration, dimpling, asymmetry
- Infection & malar edema
- Thread breakage & correction protocols

03:30 – 04:00 PM

Tea Break

04:00 – 05:00 PM

Panel Discussion:

“If I Could Go Back in Time: The Worst Complications I Faced & How I Resolved Them”

With top surgeons, dermatologists, injectors.

05:00 – 05:30 PM

GASI Safety Standards Launch

Introduction to GASI protocols for global safety alignment.

DAY 2 — LASERS, THREADS, ENERGY DEVICES, SURGICAL COMPLICATIONS & EMERGENCY PROTOCOLS

THEME: IDENTIFYING, HANDLING & PREVENTING ADVANCED COMPLICATIONS ACROSS ALL MODALITIES

09:00 – 09:45 AM

Session 6: Laser & Energy Device Complications

- Burns, scarring, PIH, over-treatment
- Laser selection mistakes
- When NOT to use devices

09:45 – 10:30 AM

Session 7: PRP, Mesotherapy & Regenerative Complications

- Infection prevention
- Nodules, allergic reactions
- Growth factor misuse
- Regenerative medicine safety

10:30 – 11:00 AM

Tea Break

11:00 AM – 12:00 PM

Session 8: Chemical Peels & Aesthetic Dermatology Complications

- Frosting levels
- Post-inflammatory hyperpigmentation (PIH)
- Managing burns & scars
- Safe peel depth selection

12:00 – 01:00 PM

LIVE DEMO: Ultrasound-Guided Complication Management

- Identifying filler placement
- Dissolving under ultrasound
- Injection correction techniques
- Managing vascular emergencies

01:00 – 02:00 PM

Lunch Break

02:00 – 03:30 PM

GASI Emergency Simulation Workshop

- Running a code in aesthetic practice
- Visual loss protocol
- Anaphylaxis response
- Emergency kit & clinic readiness

03:30 – 04:00 PM

Tea Break

04:00 – 05:00 PM

Congress Closing & Certificate Ceremony

BENEFITS OF ATTENDING THE GASI INTERNATIONAL CONGRESS

1. Global-Level Knowledge on Complication Management

Learn the latest scientific protocols for preventing, identifying, and managing complications in: Injectables (Botox & Fillers), Threads, Lasers & EBDs, Regenerative therapies, Surgical aesthetic procedures. Get updated with international safety standards directly from top experts.

2. Training in GASI Emergency Protocols

Gain firsthand exposure to essential emergency management frameworks: Vision loss protocol, Vascular occlusion algorithm, Anaphylaxis response, Running a code in clinic, Emergency kit readiness. You become better prepared to handle critical situations safely and effectively.

3. Learn in Real Time with Live Demonstrations Straight from the Operating Room

Experience real clinical skills through: Ultrasound-guided complication demonstrations, Filler reversal techniques, Thread complication correction, Laser burn management, Regenerative complication handling. This strengthens your confidence and practical capability.

4. CPD / CME / Certificate of Attendance

All participants receive:

- GASI Congress Certificate of Attendance
- Eligibility for advanced GASI & IMCAC certifications

5. Priority Access to GASI & IMCAC Pathways

Attendees get priority eligibility for:

- GASI Complication Management & Safety Certification
- GASI Aesthetic Safety Compliant Clinical Accreditation
- IMCAC Level 7 Fellowship in Advanced Facial Aesthetics
- Hands-on workshops & masterclasses

6. Networking With Global Leaders & Industry Experts

This creates collaboration, learning, and referral opportunities.

7. Updated Safety Resources & Protocol Manuals

Attendees receive exclusive access to:

- GASI safety protocols
- Complication management algorithms
- Emergency documentation sheets
- Clinic safety checklists
- Case discussions & expert tips

These downloadable resources are highly valuable for clinics.

8. Improve Your Clinical Reputation & Patient Trust

Being a GASI Congress attendee positions you as a safety-focused practitioner, increasing: Patient confidence, Clinical credibility, Professional branding, Social media authority. You stand out as a practitioner who prioritizes safe aesthetic practice.

9. Exposure to New Technologies & Innovation

Discover the latest advancements in: AI-based diagnostic tools, Ultrasound technologies, Robotics in aesthetics, Predictive complication analytics, Safety-enhancing devices. Stay ahead of the industry curve.

10. Lifetime Access to the GASI Community

Join an international group of safety-driven practitioners with: Discussion forums, Mentorship access, Case guidance, Clinical updates, Global practice standards. This ensures continuous learning long after the congress ends.

**INTERNATIONAL CONGRESS ON COMPLICATION MANAGEMENT IN
AESTHETIC MEDICINE & SURGERY**

SPONSORSHIP PROPOSAL

GLOBAL AESTHETIC SAFETY INITIATIVE (GASI)

CONGRESS & MASTERCLASS SERIES

ORGANIZED BY: INTERNATIONAL MEDICAL COMPETENCY ACCREDITATION COUNCIL

LOCATION: BANGKOK, THAILAND

AUDIENCE: DOCTORS, DENTISTS, NURSES, AESTHETIC PRACTITIONERS

FORMAT: 2-DAY CONGRESS

1. About the Event

The GASI Aesthetic Safety Congress is a premier international event dedicated to enhancing safety standards in aesthetic medicine. This congress brings together global leaders, medical practitioners, academicians, and industry innovators to discuss best practices, complication management, advanced injection protocols, and emergency readiness.

2. Why Partner With Us?

Sponsoring GASI gives your brand unmatched visibility and access to a high-value audience in the aesthetic industry.

Key Advantages:

✓ Exposure to 200–500+ aesthetic professionals

Doctors, dermatologists, plastic surgeons, clinic owners, academy owners, nurses, aesthetic practitioners.

✓ Position your brand as a safety-driven leader

Directly support global safety education under GASI—powerful for brand credibility.

✓ Product Demonstration Opportunities

Hands-on time with participants during workshops.

✓ Database of Registered Attendees

(If allowed by compliance; or partial access)

✓ Branding across global platforms

Website, social media campaigns, congress banners, certificates, and printed materials.

3. Sponsorship Packages

PLATINUM SPONSOR

INR 3,00,000 / USD 3500

Benefits:

- Exclusive "Platinum Sponsor" branding on all materials
- Logo on Stage Backdrop (Prime Position)
- 1 Premium Exhibition Booth (Prime Location)
- 15-minute Product Presentation on Main Stage
- Product demo during hands-on workshop (with consent)
- Branding on delegate kits, badges & certificates
- Full-page advertisement in Congress Booklet
- Social media promotion to 200K+ reach
- Company brochure in every delegate kit
- 4 Complimentary Full-Access Passes

GOLD SPONSOR

INR 2,00,000 / USD 2,500

Benefits:

- Logo on Stage Backdrop
- 1 Exhibition Booth
- 10-minute Product Presentation
- Social media announcement posts
- Half-page ad in the Congress Booklet
- Brochure/flyer distribution
- 2 Complimentary Passes

SILVER SPONSOR

INR 1,25,000 / USD 1,500

Benefits:

- Logo on event banners & screens
- 1 Exhibition Table
- Inclusion in social media promotions
- Logo in Congress Booklet
- 1 Complimentary Pass

EXHIBITOR PACKAGE

INR 50,000 / USD 700

Benefits:

- Exhibition space (Table + 2 Chairs)
- Product display rights
- Mention in event booklet
- Access to participants during breaks

4. Additional Sponsorship Add-Ons

🚀 Session Sponsorship (INR 50,000 / USD 700)

Branding on 1 scientific session.

Delegate Kit Sponsorship (INR 75,000 / USD 1,000)

Your logo printed on bags.

💧 Water Bottle Sponsorship (INR 30,000 / USD 400)

📖 Congress Booklet Sponsorship (INR 50,000 / USD 600)

📷 Photo Booth Branding (INR 40,000 / USD 500)

5. Audience Profile

- Aesthetic Physicians
- Dermatologists
- Plastic Surgeons
- Dental Surgeons
- Aesthetic Nurses
- Cosmetologists
- Academy Owners
- Clinic Chains
- Product Distributors

Highly relevant for companies offering: fillers, toxins, threads, PRP kits, skinboosters, lasers, RF devices, skincare brands, supplements, regenerative products, consumables.

6. Sponsor Deliverables

All sponsors receive:

- ✓ Pre-event branding
- ✓ On-site branding
- ✓ Social media visibility
- ✓ Post-event reporting
- ✓ Networking opportunities

A close-up photograph of a woman with long brown hair and her eyes closed, receiving a facial injection. A hand in a white glove holds a syringe, injecting a clear liquid into her cheek. The background is a soft, out-of-focus grey.

PRE-CONGRESS MASTERCLASS

**POSTGRADUATE FELLOWSHIP
MASTERCLASS IN ADVANCED
AESTHETIC MEDICINE**

DATE: FEBRUARY 10 - 11, 2026

The Postgraduate Fellowship Masterclass in Advanced Aesthetic Medicine is a premier, high-level scientific and practical training program created exclusively for doctors, surgeons, and licensed aesthetic practitioners who aspire to achieve mastery in cutting-edge aesthetic procedures. This elite 2-day fellowship integrates advanced facial anatomy, evidence-based clinical protocols, hands-on training on anatomical models, and comprehensive modules in Cosmetic Gynecology & Intimate Rejuvenation. The curriculum is fully aligned with the global safety standards of GASI and the competency framework of IMCAC, ensuring participants receive world-class education backed by internationally recognized quality benchmarks.

THE MAJOR INDICATIONS COVERED ACROSS 2 DAYS

DAY 1:

SESSION 1: Advanced Facial Anatomy

- Layer-by-layer vascular anatomy
- High-risk zones: lips, tear trough, temples, nose, midface
- Danger zone mapping for safety

SESSION 2: Botulinum Toxin Masterclass

- Upper & lower face
- Masseter sculpting
- Brow lift toxin patterns (preparation for Fox-Eye)

SESSION 3 (Indication 1): Lips Masterclass

- Russian, Hybrid, Natural lip design
- Vermillion border safety
- Avoiding lumpiness, migration & vascular compromise

SESSION 4 (Indication 2): Under-Eye / Tear Trough

- Tear trough anatomy
- Cannula vs needle
- Avoiding Tyndall & malar edema
- Midface support grid

SESSION 5 (Indication 3): Midface / Cheek Contouring

- Ogee curve
- Malar pillars
- Deep fat pad augmentation

SESSION 6 (Indication 4): Non-Surgical Nose Enhancement

- Radix lift
- Tip projection
- High-risk triangle
- Blindness prevention protocol (GASI Protocol)

SESSION 7 (Indication 5): Jawline & Chin Sculpting

- Masculinization & feminization
- Chin projection ratios
- Chin tox synergy

DAY 2

SESSION 8 (Indication 6): Fox-Eye / Brow Lift (Thread Lift)

- PDO/PLLA/PCL threads
- Vector planning
- Brow lift & lateral canthal lift
- Complication prevention: asymmetry, dimpling, infection

SESSION 9 (Indication 7): Neck Rejuvenation

- Nefertiti Lift
- Platysma toxin
- Neck boosters
- Skin tightening combinations

SESSION 10 (Indication 8): Skin Boosters & Biorevitalization

- Microdroplet technique
- Perioral, periocular, neck, hands
- PRP/PRF vs Skinboosters
- Biostimulators (CaHA, PLLA)

SESSION 11: Regenerative Aesthetics

- PRP/PRF
- Stem cell-based therapy overview
- Hair restoration methods: Needle Method, Implanter Pen
- Combination with toxins/fillers

SESSION 12: Cosmetic Gynecology & Intimate Rejuvenation

- Anatomy for dermatologists & plastic surgeons
- Laser/RF vaginal tightening
- Labial fillers & augmentation
- PRP/PRF for intimate areas
- Vulvar whitening
- Mons pubis contouring
- G-Shot/O-Shot overview
- Complications & medico-legal protocols
- ✓ Demo Video: PRP Intimate Rejuvenation

KEY FEATURES OF THE FELLOWSHIP

- Hands-on training with anatomical injection models
- Full-face mapping for all indications
- Advanced combination approaches (filler + toxin + threads + boosters)
- Cosmetic Gynecology & Intimate Rejuvenation
- GASI emergency & complication management protocols
- Live demonstration sessions
- Clinical decision-making exercises
- Clinical Rating By GASI
- OSCE-style practical assessment
- Fellowship-level academic discussions

WHO CAN ATTEND?

- Dermatologists & Cosmetic Surgeons
- Medical Doctors (MBBS/MD/MDS)
- Aesthetic Physicians
- Certified Aesthetic Nurses/Registered Nurses (as observers or assistants)

CERTIFICATION AWARDED

Participants completing the 4-day with pre congress masterclass with congress receives:

- Fellowship in Advanced Aesthetics and Regenerative Medicine
- Fellowship in Aesthetic Nursing

Issued by:

- International Education Board – Department of Aesthetic Medicine & Surgery (IEBDAMS)
- International Medical Competency Accreditation Council (IMCAC)

Includes:

- ✓ Full-Face Injectable Competency
- ✓ GASI-aligned Safety Certification
- ✓ OSCE Practical Assessment Score
- ✓ Digital Verification & QR-Code Authentication
- ✓ Clinical Rating and Award

EVENT OUTCOME

By the end of the 2-day masterclass and 2 days congress, participants will achieve:

- ✓ Full anatomical understanding of high-demand indications
- ✓ Practical hands-on (anatomical) skills across fillers, toxins, and threads
- ✓ Ability to create complete facial transformation plans
- ✓ Confidence in managing complications
- ✓ Fellowship-level credentials

⚠ IMPORTANT DISCLAIMER (THAILAND TRAINING REGULATION)

As per Thai medical and educational regulations, international participants are not permitted to inject live patients in Thailand. Therefore, all hands-on training during this fellowship will be conducted exclusively on high-grade anatomical models designed for realistic injection simulation.
