## Profile

---

I'm Mahmoud Abdelaziz, a Webflow Certified Partner, Web Designer & Developer specializing in Webflow development. I build websites that go beyond aesthetics — digital experiences designed to strengthen brands, build credibility, generate leads, and support business growth.

Every project combines clean UI/UX design, strategic thinking, and conversion-focused development — from Figma design to fully functional Webflow websites using modern no-code stacks like WWX (Webflow + Wized + Xano/Airtable).

## Professional Experience

---

**Web Developer (Freelance/Contract), Mersal24** 2025 – Present  
Remote

- Collaborated with a marketing and creative agency to deliver responsive, user-centered websites.
- Enhanced user experience and implemented interactive features using Webflow, Wized, and Make.
- Worked closely with cross-functional teams (design, content, and strategy) to ensure websites met client branding and marketing goals.
- Contributed to multiple digital projects across web development, social media campaigns, and design integration.

**Freelance Web Designer & Developer, Karii Lab** 2025 – Present  
Remote

- Managed client-contracted projects from proposal evaluation to final delivery, ensuring cost-effective and scalable solutions.
- Designed and developed custom websites and digital solutions using Webflow, Wized, and automation tools.
- Delivered end-to-end project management, from requirements gathering and UX/UI design to deployment and client handover.
- Built long-term relationships with clients by ensuring timely delivery, technical quality, and alignment with business objectives.

**Web Designer & Developer, Entlagah** 2025 – Present  
Egypt/UAE

- Designed and developed websites for governmental and private sector organizations.
- Delivered the NIGSD (Egypt's Ministry of Planning) official website with optimized UI/UX and accessibility standards.
- Created a real estate platform for MANAJ (Dubai) with dynamic CMS, responsive layouts, and API integration.
- Ensured projects adhered to enterprise-level performance, SEO optimization, and cross-browser compatibility.

### **Web Designer & Developer, *Freelance***

2023 – Present

Remote

- Delivered 40+ freelance projects for agencies and brands including Effect (MBC Group Partner), Dreamspace (Saudi Arabia), and Kanaf Real Estate.
- Designed and developed custom Webflow templates, landing pages, and e-commerce websites.
- Implemented REST APIs, payment gateways, authentication systems, and CMS-driven content.
- Built long-term client relationships through consistent delivery, project management, and post-launch support.

### **Web Designer & Developer, *Rafah Al***

2024 – 2025

Remote

- Led the end-to-end design and development of an AI-powered mental health SaaS platform.
- Built personalized user dashboards, integrated psychological testing modules, and implemented real-time progress tracking.
- Developed the platform using Webflow, Wized, and AWS hosting, ensuring high scalability and security.
- Collaborated with a cross-functional team to deliver a responsive, data-driven solution for thousands of users.

### **UI/UX & Front-End Developer, *Dezigners***

02/2024 – 10/2024

France

- Trained in UI/UX design with Figma following European usability and accessibility standards.
- Designed and built responsive websites using Webflow and the Finsweet Client First Framework.
- Integrated APIs with Wized and implemented no-code back-end solutions with Xano.
- Enhanced user experience by delivering modern, scalable, and interactive web applications.
