Demo

ChatGPT (Agent)

Daisy – Evaluation Analyst

Estimated time saved is 2 hours.

Daisy takes our course evaluations excel files and analyzes the responses and comments. It creates two deliverables. An evaluation summary with graphs and an actionable punch list.

ChatGPT (Thinking)

Lily – Item Writing Assistant

Estimated time saved is 20+ hours.

Lily was originally set up by our team, psychometrician and SMEs to write items for our course's final assessments. This has been a game changer for our team. For this course I tested bringing in other sources besides just course content.

ChatGPT (Prompt)

Iris – Writing Assistant

Estimated time saved is 1 hours.

Iris follows IFMA's branding policy, writing style policies and follows AP style writing. She also can put content in documents in pptx or word templates created by MARCOM. My favorite!

Victoria Acosta

Director, Learning Technology with IFMA

Copilot (Agent)

Rose – Day Planner Assistant

Estimated time saved is 1 hour.

Rose analyzes my outlook calendar, teams, email and prioritizes my day. This needs more work.

Copilot (Agent)

Sunny – Meeting Package Assistant

Estimated time saved is 30-45 minutes.

Sunny takes my meeting recordings and creates, action items, priorities, highlights and a summary/action item email to the team.
