TOOL
**PERSONAL
BOARD OF
DIRECTORS**

Root

My "root" level board of directors that are utilized to make sure that communications are appropriate for the respective user/group I wanted to send that info for.

TOOL
**AI INSIGHT
ASSISTANT**

Brief

Looks through my team's emails and assesses how many emails we have responded to and what is still needed to be worked on.

TOOL
**AI RESEARCH
ASSISTANT**

Tracer

Searches for dependencies with code and makes sure that I won't run into any issues with upgrading any dependencies. This process usually is very time consuming so it saves a lot of time.

TOOL
**AI PRODUCTIVITY
ASSISTANT**

Relay

Translates my notes (picture, voice, notepad, file) into jira tickets, jira comments, documentation, slack updates, or emails. Allows for updating documentation with notes and to choose case specific things like audience.

TOOL
**AI CODING
ASSISTANT**

Sharpie

My coding assistant that helps me translate old VO code into X#\C# code and helps with syntax.

TOOL
**AI CREATIVE
ASSISTANT**

Slidekick

Helps to prepare a slide deck from my notes or refines a current slide deck.
