MD, EUROPE, LEAD WITH AI

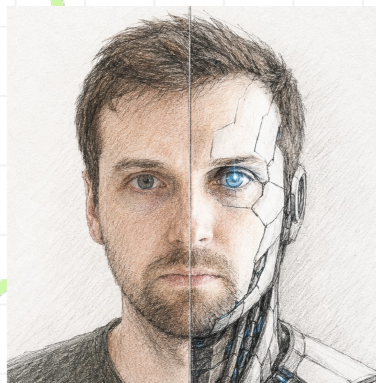

PROJECT - LIVE PERSONAL BOARD OF DIRECTORS

BOARD

Four composite characters based on real people and archetypes in- and outside Arm. Reduce time to impact by pressure testing ideas and recommending a single next step.

Me, AI-enhanced

Daniel Preston

SCHEDULED TASK - MORNING INBOX BRIEFING

OSCAR

(the Outlook

organizer)
Daily summary of emails received overnight and emails growing stale. Specific recommendations on priority (ordered) and responses (drafted) save 5 hours per week.

GPT - TESTING AI SLACK ASSISTANT

SAMI

(the Slack assistant)

Trained on Arm's Slack news channel to understand and replicate the house style. Input news URLs, output Slack suitable summaries. Testing shows it could save 75% of time per post.

GPT - TESTING AI WRITING ASSISTANT

WRONA

(the writing

assistant)
Tuned to my personal style and preferences. Knows to flex style based on audience (e.g., exec vs project update vs team update). Testing suggests it could save ~50% of time per deliverable.

SCHEDULED TASK - LIVE AI RESEARCH ASSISTANT

RADEK

(the research

assistant)
Identifies the most consequential developments across AI, leadership, communications, management, and semiconductors, then translates them into evidence-based implications and practical actions for me each week. Saves multiple hours per week.

LOVABLE - DEV WEB APP

EXEC COMMS PRIORITIZER

Use data to select the next best step in a comms campaign based on impact, readiness, risk.

Early development.
