This Certifies That

Jolanz Rodrigo

Has Demonstrated Practical Expertise By Implementing
A Minimum Of Three AI Assistants.

Hereby Recognized As A

Qualified AI Leader

CONDUCTED BY

Daan van Rossum

FOUNDER & CEO, LEAD WITH AI

[TOOL]

News Intelligence Assistant

PulseWatch

Description:

Automatically collects news from multiple sources, uses AI to classify and summarize articles, identify relevant companies and market themes, assess sentiment, and flag developments that may affect the Philippine energy market.

AI Stack: Workspace Flows

Estimated time saved:

4–6 hours per week

Jolanz Rodrigo
Strategic Growth &
Analytics Manager

[TOOL]

News Intelligence Assistant

DocuSight

Description:

Extracts and summarizes key information from documents, flags risks, issues, and decision points, and recommends next steps and management talking points. An AI Board of Directors then challenges the findings from multiple perspectives before forming a recommendation.

Front-end: Vibe coded React/JS webpage

Backend: Gemini API with AppScript and Firebase integration

Estimated time saved:

3–5 hours per document batch time saved

[TOOL]

Competitor Intelligence Assistant

RECON

(deployed and functional)

Description:

Consolidates competitor intelligence, project data, and other available information into a searchable database. Its AI chatbot uses natural-language prompts to retrieve, connect, and explain relevant information for competitor and strategic analysis.

Front-end: Vibe coded React/JS webpage

Backend: Gemini API with AppScript and Firebase integration

Estimated time saved:

~6 hours/week including savings on data/document gathering costs
