MarketPulse

- Runs a scheduled scan of Philippine and global power-sector news, and competitor moves, then compiles it into one clear briefing instead of me pulling it together from multiple sources by hand.
- Estimated time saved: 4-6 hrs/week previously spent on manual news and price monitoring.

GEMINI
Policy Review

PolicyLens

- Reads through draft ERC, DOE, and other public policy issuances and produces a structured summary that flags the specific risks and opportunities for ARI, so review starts from an analysis instead of a raw document.
- Estimated time saved: 4-6 hrs/week on first-pass reading and issue-spotting.

GEMINI
Board Advisor

BoardView

- Answers questions the way a defined panel of board members would, based on their known priorities, so ideas/proposals get pressure-tested before they reach the boardroom.
