

AboitizPower AI Leader Program

DATE ISSUED

Sep 2026

This Certifies That

Jonathan Uy

Has Demonstrated Practical Expertise By Implementing
A Minimum Of Three AI Assistants.

Hereby Recognized As A

Qualified AI Leader

CONDUCTED BY

Daan van Rossum

FOUNDER & CEO, LEAD WITH AI

Gemini Canvas Budget Monitoring

Rosie

- A web app built via vibe coding to track department budget and payables transactions, enabling faster and more accurate budget-vs-actual reporting.
- Estimated time saved: completed the app with several iterations with a total time spent of 2-3 hours (against having the app developed which may take at least a month)

Business Partner

Claude AI MoM Reviewer

Acer

- Leveraged GenAI to review MoMs submitted by team members and provide targeted feedback to ensure consistency with the team's accepted format and structure. Approved past MoMs are used as reference examples, allowing the tool to benchmark new submissions against established standards rather than relying on generic formatting rules.
- Estimated time saved: From 2 hours at least for every MoM to less than 1 hour.

Gemini Contract Monitoring

Curly

- Used GenAI to automatically review the contract inventory and generate a report flagging contracts due for review or renewal. The tool also prioritizes contracts by importance and risk, helping the team focus on the most critical tasks first.
- Estimated time saved: From at least 1 hour for every review to less than 10 minutes.
