CONDUCTED BY

Henrik Jarleskog

MD, EUROPE, LEAD WITH AI

Eileen Habelow
Founder

PERSONAL BOARD OF DIRECTORS

LLOD BoD

- The Board of Directors for LLOD helps me explore strategy for the new company based on the Strategic Intelligence brief every Friday, plus a BoD I would not have access to, other than via this tool
- Estimated time saved:

AI PRODUCTIVITY ASSISTANT

EH Persona and Tone Skill.md

- Refined an existing tone skill based on the personal prompt - had it analyze my LinkedIn posts for more tone refinement. The skill.md is now in action and very good
- Estimated time saved: For each post I write, the refinement will make my writing more concise and compelling; saves 15-minutes per post.

LLOD Workshop Design Bench

Lovable +

- Using Lovable, Notion plus Supabase to help organize, categorize, and serve up all existing IP to build new custom workshops
- Estimated time saved: Honestly, the most valuable tool I created during the training - it will save days, eventually!

AI CREATIVE ASSISTANT

Claude PPT Plug-In

- Claude's ability in PPT to rebrand all slides into a new format and to highlight text-based inconsistencies has been invaluable.
- Estimated time saved: At least one hour per deck, 35 decks in total. This is a project for September!

AI RESEARCH ASSISTANT

LL Strategic Intelligence

- Given I am building an AI-powered online learning portal, it is critical to stay up to date on what is happening in the space, including great companies who are building new applications. This scrapes for credible advances in AI-powered learning and coaching; delivered every Friday afternoon for weekend reading.
- Estimated time saved: Two hours per week

AI INSIGHT ASSISTANT

LL Weekly Client News Brief

- Searches Dropbox to identify current active clients, then searches for critical moves in the news about each client; delivered automatically every Monday morning
- Estimated time saved: If I were to do it manually each week, it would take at least one hour for a cursory look.
