[ChatGPT]
PERSONAL BOARD OF DIRECTORS

[Mindahi -Board of directors]
Individuals: Escobar brings pluriversal and decolonial thinking; Akómoláfé brings complexity and emergence; Kothari brings ecological democracy and justice; Tickell brings systems transformation and moral imagination.

Collective function: To serve as your critical and creative thought partners, integrating these perspectives to challenge assumptions, navigate complexity, sharpen strategic decisions, and turn transformative possibilities into meaningful action.

Time save: I would put this not as time saved at the moment, but more as quality of my work and decision making, which in time translates to personal growth

AI PRODUCTIVITY ASSISTANT

[Wally]

- Wally helped me with my emails and it has been amazing
- Estimated time saved: 25%

[Chat GPT]
AI INSIGHT ASSISTANT

[Greg]

- Description: day to day support in connecting insights across research, innovation projects, stakeholder engagement, and emerging environmental challenges.
- Estimated time saved: 10%

[Anca Damerell]

[Director of innovation

[Claude]
AI AI CREATIVE ASSISTANT

[XR- video content]

- This is my newest assistant and the one I explored the least: i got inspired by a TedTalk and used a plug in Hypermotion; plan is to produce a video to show impact of the organisation for the board meeting in December
- Estimated time saved: TBD

[Claude]
AI RESEARCH ASSISTANT

[Hildegard of Bingen]

- Description: One of my favourite agents personalised with the perspective of Hildegard. She tried to develop a unified understanding of life, nature, humanity and the cosmos. She looked into a fascinating concept called universal knowledge or universal wisdom — the ambition to understand how all branches of knowledge connect.
- Time save: I only fiddled with the Agent and I need a real project to apply it to, to see exactly the performance element.

[ChatGPT]
AI CREATIVE ASSISTANT

[J.W]

- Description: Helps me with the creative materials- particularly PPT slides for board meetings, world congress e.g. WEF, Ted Talk; I have used it for my latest Ted Talk and the graphic was superb!
- Estimated time saved: To be determined; it is my first time using it and it took me probably longer than I would have done it on my own; But the difference is incredible in the graphic and now that I learned the tricks it will save me time; Also, I see here an element of quality over quantity;
