

Deceased OnLine

Deceased Online is the only national database dedicated to statutory burial and cremation records. Millions of burial and cremation records are available to search for free on www.deceasedonline.com, supplied directly from local authorities and private cemeteries and crematoria from all over the UK.

Why join Deceased Online?

- ◆ Councils can preserve their registers which is part of your history
- ◆ Save on staff resources – less time spent searching and answering queries.
- ◆ Covers all your obligations on Freedom of Information
- ◆ Retain full ownership of your data
- ◆ Revenue is generated 24 hours per day, 7 days per week.
- ◆ Deceased Online can work with data from any information management system. Current and future data can be updated as require

Deceased Online involves scanning your registers, transcribing the records from the scans, quality checking those transcriptions, creating a vector-based section map from your maps, and uploading everything to the Deceased Online website for the public to search and view, which generates revenue for you.

In addition, you would receive a complete copy of the data created from your registers, which you could upload into your management system or use as a spreadsheet.

Our team would welcome the opportunity to look after your records and make them available to the general public. sales@deceasedonline.com
