TECHNICAL DATASHEET

Heavy-Duty Plate HeavyTerra

Ground protection plates for very heavy-duty applications
44N I Heavy-duty profile I Normal

Available with heavy-duty profile and construction profile (BauProfil)

200 t/m²	3.0 m	2.0–2.5 m	44 mm	238–300 kg	100 % PE
Load capacity*	Length	Width	Thickness	Weight	Recycled

TECHNICAL DATA

Type	Heavy-duty plate HeavyTerra 44N, heavy-duty profile I Normal
Thickness	44 mm total (40 mm core / 4 mm profile)
Material	100 % recycled PE
Profile type	Heavy-duty profile (robust & slip-resistant)
Load capacity	200 t/m²*
Features	4 galvanized crane lifting eyes & 10 connection holes
Logo	Your logo embossed on request**

YOUR BENEFITS

- Load capacity of 200 t/m²: ideal for construction traffic
- Heavy-duty profile: robust, slip-resistant and suitable for heavy-haul transport
- For tracked vehicles, heavy-haul transport and rough terrain – on construction sites, in industry and in the military
- Temporary access routes, very heavy vehicles and machinery, pedestrian guidance
- 4 galvanized crane eyes and 10 connection holes for fast deployment
- Your logo embossed on request – eye-catching advertising on construction sites, events and car parks

HEAVY-DUTY PLATE HEAVYTERRA

In use

Heavy-duty plates for construction, industry and the military

The Ground Protect® 44 HeavyTerra series offers maximum stability – even under the toughest operating conditions.

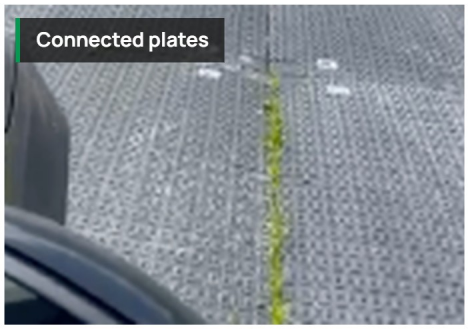

IDEAL APPLICATIONS

The Ground Protect® 44 HeavyTerra series stands for maximum stability under the toughest conditions. Whether on construction sites, in industrial facilities or in military use – these heavy-duty plates reliably carry extreme point loads and provide secure footing for tracked vehicles, heavy-haul transport and machine traffic on demanding ground.

With a thickness of 44 mm, a slip-resistant heavy-duty profile and robust construction, they are built for intensive long-term use. All variants feature galvanized crane eyes and connection holes for efficient installation. Your logo can be embossed on the plates on request – perfect for efficient operations with a visible presence.
