

CRAVE CONTROL

NATURAL APPETITE CONTROL

L-Phenylalanine can be converted in the brain and adrenal glands to the neurotransmitters dopamine, norepinephrine, and epinephrine (adrenaline) that are depleted by stress, overwork, and certain drugs. Replenishing these enhances mental energy levels and produces a feeling of contentment, supported by co-factors vitamins B6 and C.

NATURAL APPETITE CONTROL

- All Natural, Safe, and Effective
- Non-Stimulant & Non-Addicting
- Safe For Kids & Teens / Can Be Used with Phentermine

"Crave Control provides a therapeutic dose of the essential amino acid L-Phenylalanine to support neurotransmitters and help naturally control appetite and satiety. Contains 60 Capsules."

SUGGESTED USE:

As a dietary supplement, take one (1) capsule with each meal or as directed by a health professional.

ACTIVE INGREDIENTS:

L-Phenylalanine (300mg), Vitamin C (100mg), Pantothenic Acid (50mg), Vitamin B6 (25mg).

MECHANISM OF ACTION

- Converts to dopamine & norepinephrine
- Releases cholecystokinin (CCK)
- Produces feelings of fullness & satisfaction

ALSO RECOMMENDED

- LipoVite
- Glucose Support
- Be-Thin

"Studies refer to L-Phenylalanine as a 'potent releaser' of CCK, a hormone that produces feelings of food satisfaction resulting in reduced desire for food and less food intake."
