

PROJECT LIST: INNOVATION IN ACTION

At Greenlite Glass Systems, we take pride in delivering innovative and high-performance glazing solutions that redefine architectural excellence. With a proven track record of success, we have completed over 300 projects across North America, spanning a diverse range of sectors including commercial, residential, healthcare, education, and cultural institutions.

This curated list highlights some of our most notable projects, showcasing our expertise in integrating innovative glazing systems with visionary design. From iconic landmarks to state-of-the-art facilities, each project reflects our commitment to quality, sustainability, and collaboration with leading architects, designers, and builders.

In addition to our completed projects, we are actively engaged in numerous developments currently under construction, further expanding our portfolio and pushing the boundaries of what is possible in modern architecture. Among these, we are proud to highlight two recent large-scale projects: the **JP Morgan Chase HQ** in New York, which is in its final stages and set to open soon, and the **Google Sunnyvale** project in California, a testament to our ongoing innovation and dedication to excellence.

We invite you to explore our work further by following us on social media, reaching out to us for inquiries, and watching our annual Year in Review video, where we share exciting updates and milestones from our journey.

ABOUT GREENLITE GLASS SYSTEMS

We offer Architects, Designers and Developers unique and exciting alternatives to traditional and non-traditional glass applications.

Through ownership of proprietary technology and strategic partnerships, Greenlite Glass Systems, provides engineered solutions and technical support throughout North America and around the globe.

VALUES

INNOVATION

Our vision is to provide advanced glass systems designed for performance, safety, and reliability.

SUSTAINABILITY

Championing a greener tomorrow with environmentally certified solutions like LITEFLAM, EPD, and HPD certified.

EXCELLENCE

Delivering unmatched quality and service, meeting and exceeding the industry's highest standards.

METHODOLOGY

Proven processes in design, development, and manufacturing ensure the success of every project.

ACHIEVEMENTS

- **2019** Best Protective Glazing Project, Glass Magazine
- **2018** PIA Innovation Award, Architectural Products Magazine
- **2018** Readers Choice Award, US Glass Magazine
- **2017** Green Design Award, US Glass Magazine
- North America's Largest Fire Rated Glass Floor Installation- San Francisco, Salesforce Transit Center **2018**
- North America's first exterior fire-rated glass floor and skylight installation, New York University **2009**
- Over **300** completed projects in North America

SERVICES

DESIGN ASSIST

With expertise in glazing systems, we've assisted over 100 architectural firms in selecting the best solutions for their projects. Our guidance ensures compliance, performance, and aesthetics, helping designers and glaziers bring their visions to life.

PROJECT MANAGEMENT

We have successfully managed numerous projects from design to installation, ensuring seamless execution and quality results. Many of our completed projects are showcased on our reference list, highlighting our ability to deliver on time and within specifications.

EDUCATION

Over the last five years, we have scheduled 50+ in-person and virtual presentations, even adapting during challenging times. Each year, we visit 10-20 firms, in addition to attending trade shows and public events to share our expertise.

PROJECTS
