

TECHNICAL Data Sheet

Surface Cleaner (SC)

environmental products for a greener planet

Key Benefits

- **Breaks down organic soils** including grease, oil, and food residues for effective cleaning
- **Safe for most hard surfaces** including metal, plastic, tile, and concrete
- **Non-toxic and biodegradable**, free from harsh solvents, acids, and caustic ingredients
- **Versatile for multiple settings** such as kitchens, workshops, equipment surfaces, and industrial environments.
- **Contains a multi-enzyme system** for complete organic matter degradation
- **Available in bulk, wholesale, and private-label** formats for industrial, janitorial, and commercial use

Applications

- Commercial & Industrial Cleaning
- Food Service & Hospitality
- Janitorial & Building Maintenance
- Equipment & Tool Cleaning

Application Rates

Powder

0.75 - 1.5 grams of powder per liter of water
2.75 - 5.5 grams of powder per gallon of water

Liquid

2.75 - 5.5 ml of liquid per liter of water
10 - 20 ml of liquid per gallon of water

Product Description

Surface Cleaner (SC) is a gentle, enzyme-based hard surface cleaner designed for safe and thorough cleaning across a wide range of applications. Formulated with a proprietary blend of natural enzymes, this product breaks down organic residues such as grease, oils, proteins, and starches without harsh chemicals or abrasives. It is non-toxic, non-corrosive, and environmentally friendly.

Packaging Options

- Powder:
 - 22 lb (10 kg) pails
 - 44 lb (20 kg) pails
 - 340 lb (155 kg) drums
 - Smaller packaging available upon request
- Liquid:
 - Quart, liter, gallon containers
 - 55-gallon (208 liter) drums

Disclaimer: Results may vary depending on environmental conditions, application rates, and management practices. The manufacturer makes no guarantee of specific results. Seller's liability is limited to replacement of product or refund of purchase price. Manufacturer is not responsible for misuse, mishandling, or application under adverse conditions beyond its control. This product is not registered for pesticidal use with the U.S. Environmental Protection Agency. It is intended as a cleaner only. Keep out of reach of children.

Shelf Life & Storage

- 2 years at room temperature
- 3 years refrigerated
- Store in a cool, dry location away from direct sunlight.
- Reseal container tightly after each use.
