

Pico & The Whispering Wolf

Pico finds a new video channel with 'secret' information that makes him feel angry and confused. The 'Whispering Wolf' says not to trust anyone else! Can the squad use their 'Safe & Smart Scan' to see through the lies, block the channel, and uncover the truth?

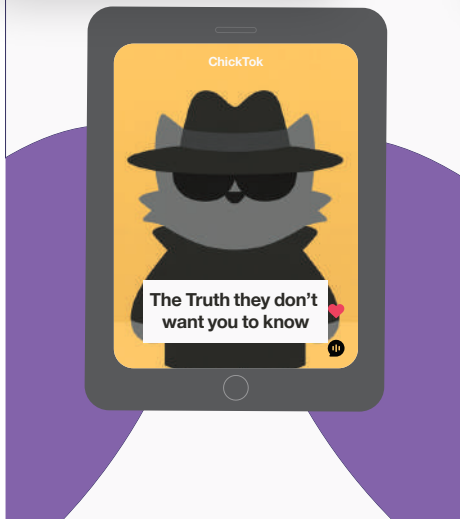

One day in pixel town
Pico was on the tablet

Watching videos on
ChickTok

A new video popped up

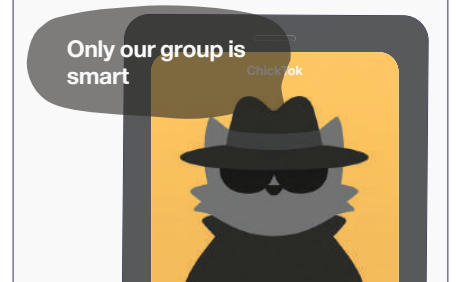

Pico said

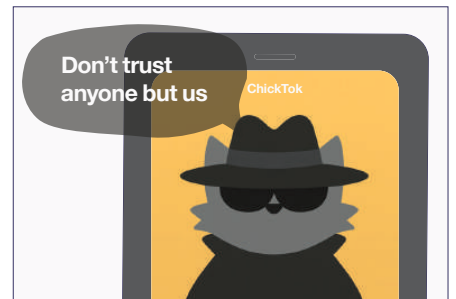

Wow, that sounds
important

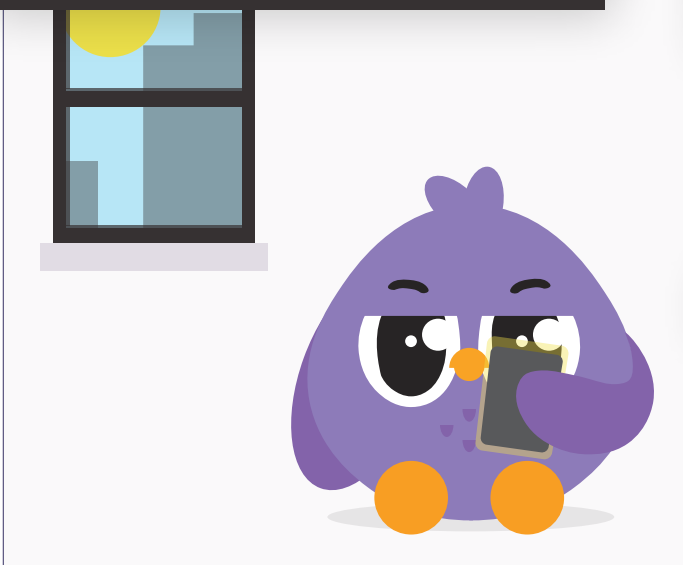

Only our group is
smart

Don't trust
anyone but us

Pico watched more.
He started to feel confused... and a bit angry

Just then Moxo
zoomed into the
room

Moxo asked Pico

Whatcha watching?

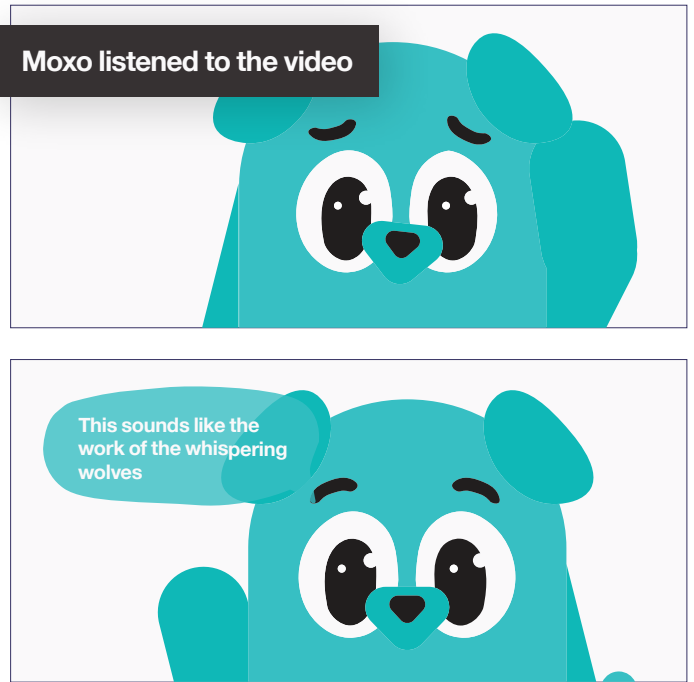

Pico scratched his head

I don't know, these people are saying weird stuff about everyone

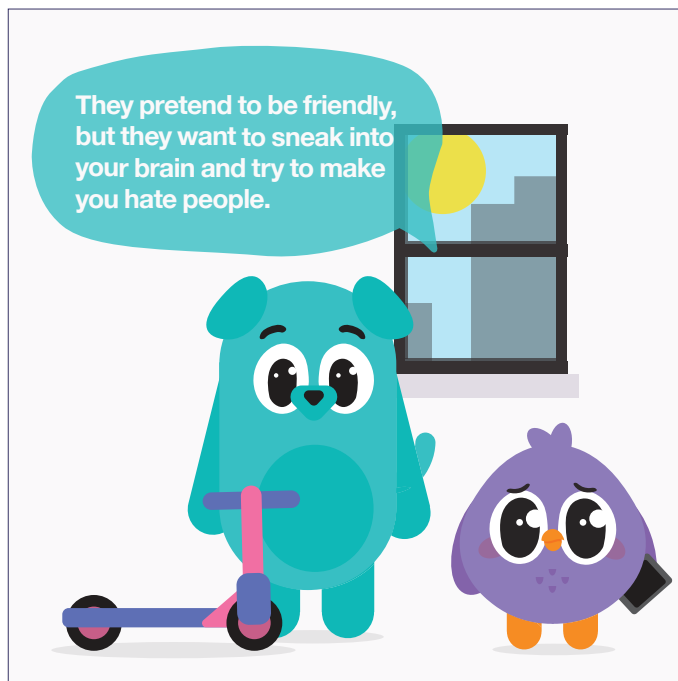

Moxo listened to the video

This sounds like the work of the whispering wolves

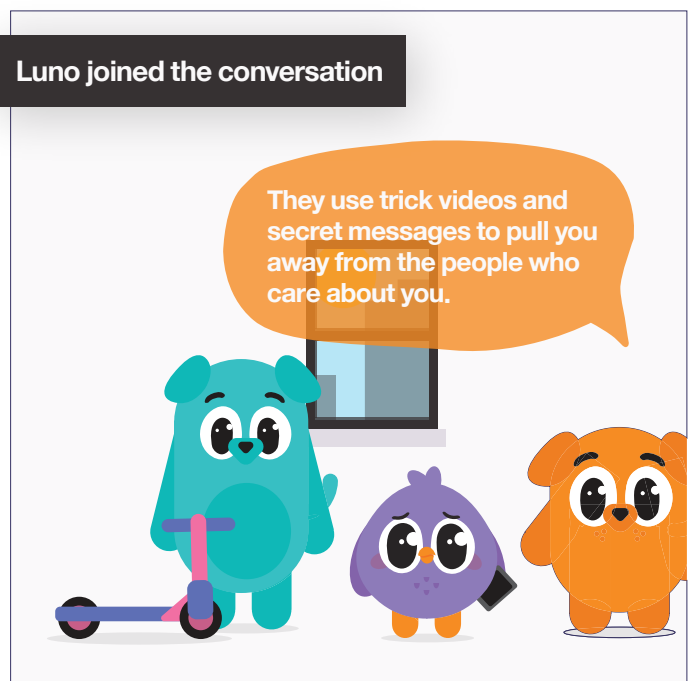

They pretend to be friendly, but they want to sneak into your brain and try to make you hate people.

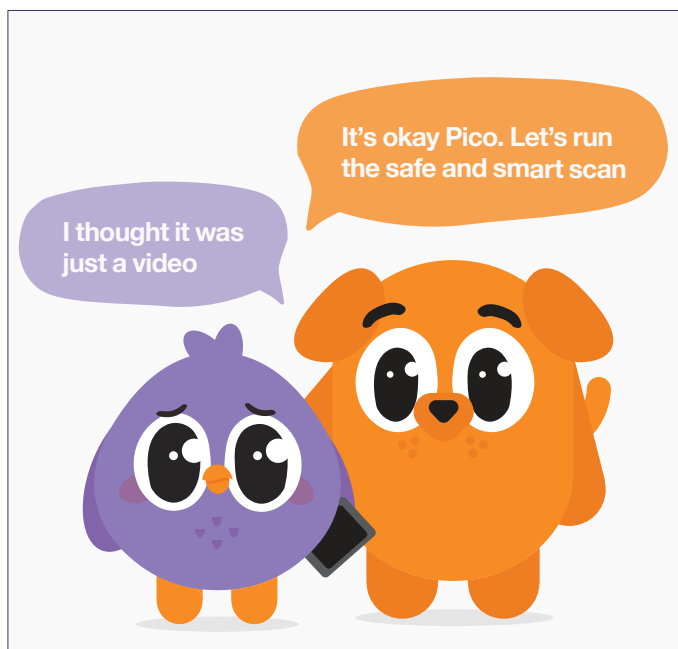

Luno joined the conversation

They use trick videos and secret messages to pull you away from the people who care about you.

I thought it was just a video

It's okay Pico. Let's run the safe and smart scan

The Safe & Smart scan.

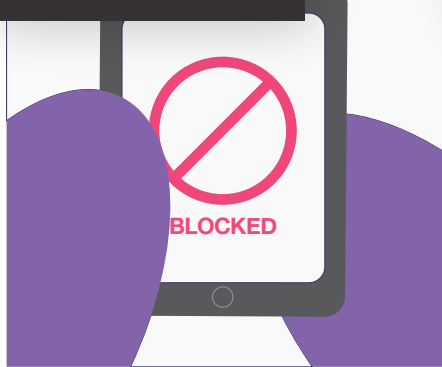

- Did it make you feel angry or scared?
- Did it say other people are bad?
- Did it ask you to keep it a secret from grown-ups ?
- Did it tell you not to trust your family or teachers?

If the answer is YES. It's a whispering wolf and they shouldn't be listened to

Together they...

Blocked the channel

Closed the app

Tell a trusted grown up

Next time someone tells me to hide something or be angry, I will say:

Not today. I've got Moxo and Luno on my side.

Let's play : Safe or Sneaky

SAFE or SNEAKY

1. You are special. Don't tell anyone we talked.

SAFE or SNEAKY

3. Only our group has the truth

SAFE or SNEAKY

2. Let's ask your parent to join our chat

SAFE or SNEAKY

4. We don't talk to people who look different
