

About Circunomics (EN)

- Circunomics is the B2B Battery Marketplace where batteries can be assessed, traded, and handled in a regulatory-compliant way across their entire lifecycle.
- At the core is a specialized marketplace for first life and second-life batteries, from new and surplus cells, modules, and packs to used assets for reuse applications.
- The marketplace is backed by Battery Lifecycle Analytics and Compliance / Battery Passport infrastructure. Together, they add condition data, valuation, and the right documentation to support clearer transactions and more transparent pricing.
- Circunomics was founded in 2019 and is headquartered in Mainz, Germany. The company operates with an internationally organized, predominantly remote team across Europe.
- Circunomics acts as a neutral marketplace operator and, in selected cases, also takes on a complementary reseller role.
- Publicly known investors include GET Fund, Schaeffler Invest GmbH, Orlen, and GG Rise.
- Awards and recognition include:
 - Finalist, Google & SAP Circular Economy 2030 Contest
 - National Winner, KfW Award "Gründen" 2021
 - 3rd Place, The Spark Award (Handelsblatt & McKinsey)
 - Best Practice Award 2023 by Frost & Sullivan (Best in Class European Circular Marketplace for Battery Trade)
 - Winner, Safety & Environment Award 2024 (auto motor und sport / HUK-Coburg)
