

Circunomics is Europe’s leading B2B Battery Lifecycle Platform. We maximize the value of every battery at every stage of its life – from First Life to Recycling. As true battery experts, we are the one-stop solution for the entire battery lifecycle.

• WHAT WE DO

Our Three Core Areas

First Life Trading

Trading of cells, modules, and battery packs in First Life via our digital platform.

Pooling demand from multiple buyers across Europe to negotiate better prices.

Second Life & Second Chance Trading

Assessment of Second Life suitability. Primary use case: BESS. Digital matching between buyers and sellers.

Europe’s largest marketplace for Second Life & Surplus batteries.

End of Life & Compliant Recycling

EPR compliance, battery registration, PRO onboarding, and certified recycling via our partner network.

Regulatory reporting & end-of-life management made simple.

• ANALYTICS & TOOLS

Battery Intelligence for Better Decisions

SOH Monitoring & Forecasting

Real-time State of Health monitoring for cells and modules – including data-driven condition forecasting.

Anomaly Detection

Detection of unusual patterns in temperature & operational data – early warning before failures occur.

Battery Pass DBP

Digital battery identity connecting compliance, analytics and lifecycle data.

• TARGET INDUSTRIES

Who Benefits from Circunomics

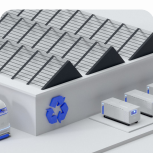

First Life

BESS Operators; Module & Battery Manufacturers; E-Bike OEMs; Power Tool Manufacturers; Drone Manufacturers; AGV / AMR Manufacturers; E-Mobility OEMs; Distributors; Industry & UPS

Second Life / Chance

BESS Operators; Stationary Storage; Energy Providers

Recycling

Battery Manufacturers (EPR Compliance); PROs ; Recyclers; Regulatory Authorities

Cross-Segment

OEMs; Recyclers; Logistics Partners

• WHAT SETS US APART

One-Stop Solution

The only platform covering the entire battery lifecycle

True Experts

Battery specialists supporting you at every stage

Analytics & Early Warning

Battery specialists supporting you at every stage

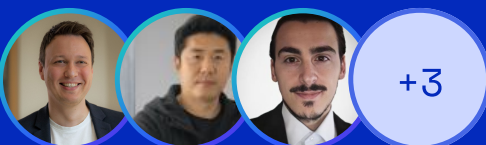

Europe’s Largest Marketplace

1.5 GWh of batteries traded on our platform

Demand Bundling

Significantly better prices through bundling demand from multiple customers
