

Wolf Creek Energy Storage Community Giving Program

SUPPORTING THOSE WHO SUPPORT LEAVENWORTH COUNTY

Wolf Creek Energy Storage's mission within the community is to provide meaningful support and resources to help Leavenworth County continue to be a vibrant place to live, work, and play for generations to come. Wolf Creek Energy Storage is managing a quarterly community giving program that supports community-based organizations (CBOs) and nonprofits serving Leavenworth County's people.

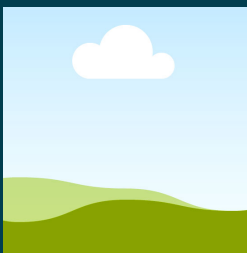

DURING PERMITTING AND CONSTRUCTION, WE'RE COMMITTING \$5,000 PER QUARTER TO LOCAL ORGANIZATIONS FOCUSED ON:

- ✓ K-12 Education
- ✓ Agricultural preservation
- ✓ Workforce development
- ✓ Community services
- ✓ Food insecurity

Once operational, these funds will transition to support an annual scholarship program for local post-secondary education students, with an emphasis on those pursuing STEM fields.

ABOUT WOLF CREEK ENERGY STORAGE

The Wolf Creek Energy Storage project is a 199MW Battery Energy Storage System (BESS) being developed and planned in Leavenworth County. Wolf Creek Energy Storage has the potential to deliver a significant investment in Leavenworth County and provide long-term benefits, including protection against avoidable energy cost increases, new local jobs, increased tax revenue to support essential services, community partnerships, and enhanced grid reliability. The Project is being developed to provide a resilient and cost-effective solution to an increasing demand for reliable energy

DO YOU HAVE A NON-PROFIT OR COMMUNITY-BASED ORGANIZATION THAT COULD USE SUPPORT?
