

STORYBOX TOTEM

Currently seeking
user testing partners
for Q3 2026

The STORYBOX 'BeCurious' Totem is a new product launching in early 2026 as part of the STORYBOX Places program.

This product builds on five years worth of insights into the delivery of digital culture programs and activations through STORYBOX.

Where the STORYBOX Cube promotes event-based digital programs and storytelling activations, the STORYBOX Totem equips citizens-in-place with resources they need to stay curious and connected with the places around them.

Features

- Touch screen for self-driven exploration via maps and directory listings
- Curated events for community and cultural programs
- Accessibility features for vision-impaired and hearing impaired audiences
- Voice-driven interface for local feedback & insights
