

Container-Strap® Puller

Plate Mounting Tool

1. Attach print plate to cylinder.

2. **Attach** Container Strap® "A" to print plate trail edge slot. Fold under to correct length.

3. Insert Container Strap Puller into part "B" rubber band slot as shown.

4. Pull down and hook the lip of part "B" into cylinder slot.

5. Use tool in same way to unhook strap from cylinder slot.

- Ergonomically Correct Tool Shape
- Eliminates Damage To Container Straps

A tool recommended to aid the pressman in applying and removing Container Straps®. **ELIMINATES DAMAGE TO STRAPS!**
