

PlateLoc™

Plate Cylinder Mounting Attachment System

Container Graphics Corp. is a pioneer in the development of plate attachment systems. The PlateLoc™ system is designed to attach flexo printing plates securely and squarely to your press. Made of tough non-shattering plastic that can easily be punched, pinned or sewn, these durable strips are the industry standard for quality printing around the world.

Non-Metal Components:

- Lead Edge
- Trail Edge
- Hanging Tab

PlateLoc™ Lead Edge Strip

- Designed to have a positive fit in all Fast-Lock style channels.
- Unique hook design makes attachment quick and easy.
- Available in 72" or 102" lengths.

PlateLoc™ Trail Edge Strip

- Reinforces and protects the trailing edge of your mounted printing plates.
- Eliminates metal grommets.
- Pre-punched with slots and holes for all CGC Container-Strap™ tensioning systems.
- Available in 72" or 102" lengths.

PlateLoc™ Hanging Tab

- Provides a strong attachment for plate storage and transport systems.
- Eliminates metal grommets.
