»» WORKFORCE

At Finewood, we believe that our workforce is our greatest strength. With a dedicated workforce of over **250 professionals**, our team drives commitment to quality, innovation, and operational excellence.

»» GREEN & SUSTAINABLE MANUFACTURING

We work together to implement energy-efficient processes, minimize waste, and use environmentally friendly materials across all stages of production. Implementation of Kaizen practices and training programs for workers have helped in moving towards our target of **net zero carbon emissions**.

- **108 KW** installed capacity of roof-top solar and an additional **400 KW** of solar capacity is under development.
- **Rainwater harvesting systems and sensor tabs** installed in our factories help to minimize water consumption.
- **Continuous monitoring** of manufacturing waste generation and **responsible disposal practices** (segregation and recycling) have helped in reduction of scrap generation.

Compliance with chemical emission standards and commitment to healthier indoor environments has achieved **GreenGuard Gold Certification** for our products.
