Chairmen Message

Hello everyone,

As we approach the end of 2024, we reflect on an extraordinary year for Bankers Vascular Centre. Our centre is expanding, with its inaugural branch opening in Baroda. When I established my practice in Ahmedabad in 2001, I faced immense frustration, as echoed by Aamir Khan in his thought-provoking show “**सत्यमेव जयते**”. I questioned

“Can any doctor survive with a genuine practice?”

Bankers Vascular Hospital has pioneered a unique trend of authentic practice. By adhering to this principle, we’ve not only survived but flourished. This success inspired our second branch in Baroda. There’s a growing demand for honest doctors, and Bankers Vascular Hospital fulfills this need. While we may encounter errors in judgment, our core principle remains to never intentionally harm patients.

Aamir Khan has shown the negative side of medical practice in his show “**सत्यमेव जयते**”, we have decided to show the positive side of medical practice in our conference titled “**सत्यमेव जयते**”. We want to demonstrate that if we follow the path of truth, it may be difficult, but in the end, truth always wins.

When I began following my principles, I encountered many difficulties. Whenever you face failure, you need inspiration to overcome it. Prakash Kaka has been an inspiring figure in my life since my school days. His quote, “**ભણ્યે કોનું ભણું થાય છે ?**” (“What good comes from just studying?”), emphasizes the importance of developing entrepreneurship skills beyond academics. Many doctors lack this skill, which is why I’ve invited him to share his insights. Another notable speaker is Dr. Yuji Okuno, an interventional radiologist who pioneered genicular artery embolization, now known as “TAME” (Trans Arterial Micro Embolization). I’ve learned from him, and our team is thrilled he’ll

discuss this topic. Our team is thrilled he'll discuss this topic. We've seen many young patients facing heart attacks; I'm one of them. Dr. Jay Shah will address this issue effectively. Dr. Prashant Bhimani's talk, "શું ડૉક્ટર ભગવાન છે ?" ("Is a doctor God?"), promises valuable insights. Patients often compliment us, saying, "સર, તમેઅમારા માટેભગવાન જેવા છો" (Sir, you're like God to us). This interesting talk will be given by Dr. Prashant Bhimani.

Dr. Prashant Bhimani's book, "હું અને તું" ("You and Me"), offers valuable relationship advice. This conference will be an enriching experience for all. Please join us and enjoy!

DR.MOHAL BANKER & DR ROZIL GANDHI

Conference Day:

1	Why young people suffer from heart disease?	Dr Jay Shah (Cardiologist)	10.00-10.30 am
2	ભણ્યે કોનું ભલું થાય છે ?	Prakash shah (Prasad industry)	10.30-11.00 am
