## Finding R&D Tax Credits for your **CYBERSECURITY COMPANY**

### Who We Are

We help business owners find R&D tax credits in a compliant and efficient way. We've worked with many cybersecurity companies to recoup costs for the research and development that you've done to innovate and grow your business.

### WHAT QUALIFIES?

- Researching and developing novel threat detection methods, including models trained to identify malware, anomalous behavior, or zero-day vulnerabilities.
- Engineering proprietary encryption protocols, authentication frameworks, or access control architectures.
- Developing and iterating on automated response systems for real-time threat containment, remediation, and recovery.
- Building custom threat intelligence platforms, including data ingestion pipelines, correlation engines, and reporting infrastructure.
- Designing and testing security tools against simulated attack environments, red team exercises, and adversarial inputs.

### WHY WORK WITH US?

#### Financially Lucrative

7-10% tax reimbursement or tax credit on qualifying costs per year.

#### No Risk Benefits

We offer a free consultation to determine whether or not you qualify. You can then claim eligible costs back from the previous 3 years, current year and every year moving forward, should you continue to perform qualifying activity.

#### What Costs Qualify?

- Wages
- Computer rental
- Contractors
- Software
